Dissenters' Right of Appraisal

One of the agenda items for the stockholders' approval is the amendment of the Articles of Incorporation of the Company extending the corporate term of the Company for another period of fifty (50) years from 15 October 2019. This proposed action shall entitle a shareholder to exercise a right of appraisal as provided under Section 81, Title X, of the Corporation Code of the Philippines ("Corporation Code").

Any stockholder of the Registrant shall have the right to dissent and demand payment of the fair value of his shares only in the following instances, as provided by the Corporation Code:

- (1) In case any amendment to the articles of incorporation has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preferences in any respect superior to those outstanding shares of any class, or of extending or shortening the term of corporate existence;
- (2) In case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property and assets;
- (3) In case of merger or consolidation; and
- (4) In case of investments in another corporation, business or purpose.

The appraisal right, when available, may be exercised by any stockholder who shall have voted against the proposed corporate action, by making a written demand on the corporation within thirty (30) days after the date on which the vote was taken, for payment of the fair value of his shares; Provided, That failure to make the demand within such period shall be deemed a waiver of the appraisal right. A stockholder must have voted against the proposed corporate action in order to avail himself of the appraisal right. If the proposed corporate action is implemented or effected, the corporation shall pay to such stockholder upon surrender of his certificate(s) of stock representing his shares, the fair value thereof as of the day prior to the date on which the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action.

If within a period of sixty (60) days from the date the corporate action was approved by the stockholders, the withdrawing stockholder and the corporation cannot agree on the fair value of the shares, it shall be determined and appraised by three (3) disinterested persons, one of whom shall be named by the stockholder, another by the corporation and the third by the two thus chosen. The findings of the majority of appraisers shall be final, and their award shall be paid by the corporation within thirty (30) days after such award is made: Provided, that no payment shall be made to any dissenting stockholder unless the corporation has unrestricted retained earnings in its books to cover such payment; and Provided, Further, That upon payment by the corporation of the agreed or awarded price, the stockholder shall forthwith transfer his shares to the corporation.

Interest of Certain Persons in or Opposition to Matters to be Acted Upon

None of the officers or directors or any of their associates has any substantial interest, direct or indirect, in any of the matters to be acted upon in the stockholders' meeting.

No director has informed the Registrant in writing that he intends to oppose any action to be taken at the meeting.

“8. Nomination and Election of Independent Director/s

The following rules shall be applicable to all covered companies:

- A. The Nomination Committee (the "Committee") shall have at least three (3) members, one of whom is an independent director. It shall promulgate the guidelines or criteria to govern the conduct of the nomination. The same shall be properly disclosed in the Registrant's information or proxy statement or such other reports required to be submitted to the Commission.
- B. Nomination of independent director/s shall be conducted by the Committee prior to a stockholders' meeting. All recommendations shall be signed by the nominating stockholders together with the acceptance and conformity by the would-be nominees.
- C. The Committee shall pre-screen the qualifications and prepare a final list of all candidates and put in place screening policies and parameters to enable it to effectively review the qualifications of the nominees for independent director/s.
- D. After the nomination, the Committee shall prepare a Final List of Candidates which shall contain all the information about all the nominees for independent directors, as required under Part IV (A) and (C) of Annex "C" of SRC Rule 12, which list, shall be made available to the Commission and to all stockholders through the filing and distribution of the Information Statement, in accordance with SRC Rule 20, or in such other reports the Registrant is required to submit to the Commission. The name of the person or group of persons who recommended the nomination of the independent director shall be identified in such report including any relationship with the nominee.
- E. Only nominees whose names appear on the Final List of Candidates shall be eligible for election as Independent Director/s. No other nominations shall be entertained after the Final List of Candidates shall have been prepared. No further nominations shall be entertained or allowed on the floor during the actual annual stockholders'/memberships' meeting.”

The Registrant has complied with the guidelines on the nomination and election of independent directors set forth in Rule 38 of the Amended Implementing Rules and Regulations of the Securities Regulation Code. The nominated independent directors, namely, Mr. Raul Juan N. Esteban and Mr. Joel L. Bodegon were duly nominated by Ms. Editha Dolon, a registered shareholder of the Registrant who is not a director, officer or substantial shareholder of the Registrant and who is not related to either of the said nominees. The Nominations Committee of the Registrant is composed of Mr. Manuel B. Villar Jr., Chairman, and Mr. Raul Juan N. Esteban and Mr. Joel L. Bodegon, members.

Standard arrangements

Other than payment of reasonable per diem of ₱50,000 per non-executive director for every meeting, there are no standard arrangements pursuant to which directors of the Company are compensated, or are to be compensated, directly or indirectly by the Company's subsidiaries, for any services provided as a director for 2014 and 2015.

Other arrangements

There are no other arrangements pursuant to which any director of the Company was compensated, or is to be compensated, directly or indirectly by the Company's subsidiaries, during 2014 or 2015 for any service provided as a director.

Employment contract between the company and executive officers

There are no special employment contracts between the Company and the named executive officers.

Warrants and options held by the executive officers and directors

There are no outstanding warrants or options held by the Company's named executive officers, and all officers and directors as a group.

Significant employee

While the Company values the contribution of each of its executive and non-executive employees, the Company believes there is no non-executive employee that the resignation or loss of whom would have a material adverse impact on the business of the Company. Other than standard employment contracts, there are no special arrangements with non-executive employees of the Company.

Independent Public Accountants

The auditing firm of Sycip Gorres Velayo & Company ("SGV & Company") is being recommended for election as external auditor for the current year.

Representatives of the said firm are expected to be present at the annual stockholders' meeting and will have the opportunity to make a statement if they desire to do so, and are expected to be available to respond to appropriate questions. In 2015, the Registrant's auditors did not perform any substantial non-audit services for the Registrant.

Changes in and Disagreement with Accountants on Accounting and Financial Disclosure

There was no instance where the Registrant's public accountants resigned or indicated that they decline to stand for re-election or were dismissed nor was there any instance where the Registrant had any disagreement with its public accountants on any accounting or financial disclosure issue.

The 2015 audit of the Registrant is in compliance with paragraph (3)(b)(iv) of SRC Rule 68, as amended, which provides that the external auditor should be rotated, or the handling partner changed, every five (5) years or earlier.

For Changes in Accounting Policies, refer to Note 3 - Changes in Accounting Policies discussion on the Consolidated Financial Statements as of and for the years ended December 31, 2015, 2014 and 2013 included in this report.

Audit Committee's Approval Policies and Procedures

In relation to the audit of the Registrant's annual financial statements, the Registrant's Corporate Governance Manual provides that the audit committee shall, among other activities, (i) evaluate significant issues reported by the external auditors in relation to the adequacy, efficiency and effectiveness of policies, controls, processes and activities of the Registrant; (ii) ensure that other non-audit work provided by the external auditors are not in conflict with their functions as external auditors; and (iii) ensure the compliance of the Registrant with acceptable auditing and accounting standards and regulations.

The Audit Committee of the Registrant is composed of Mr. Raul Juan N. Esteban, Chairman, and Ms. Benjamarie Therese N. Serrano and Mr. Joel L. Bodegon, members.

The scope, extent and nature of the services to be referred to, and/or rendered by the appointed external auditor of the Company has been unanimously approved by the audit committee in a meeting duly called for the purpose, including the fees to be paid for the services thus rendered and/or referred. In relation to the audit of the Company's annual financial statements, the Company's Corporate Governance Manual provides that the audit committee shall, among other activities (i) evaluate significant issues reported by the external auditors in relation to the adequacy, efficiency and effectiveness of policies, controls, processes and activities of the Company; (ii) ensure that other non-audit work provided by the external auditors are not in conflict with their functions as external auditors; and (iii) ensure the compliance of the Company with acceptable auditing and accounting standards and regulations.

IV. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

REVIEW OF YEAR END 2015 VS YEAR END 2014

RESULTS OF OPERATIONS

Revenues

Operating revenue

Operating revenue increased from ₱1.92 billion in the year ended December 31, 2014 to ₱2.62 billion in the year ended December 31, 2015. The 36% increase in the account was primarily attributable to the following:

- Rental income increased from ₱1.62 billion in the year ended December 31, 2014 to ₱2.38 billion in the year ended December 31, 2015. The 47% increase was due to the increase in occupancy of Starmall Las Piñas Annex, Starmall EDSA-Shaw, Starmall Alabang, Starmall San Jose del Monte, Starmall Prima Taguig and Starmall Talisay and Worldwide Corporate Center as well as the opening of Starmall Prima Daang Hari, Starmall Prima Sta. Rosa, Starmall Imus and Optimum Bank Building.
- Parking fee revenue increased from ₱40.8 million in the year ended December 31, 2014 to ₱121.7 million in the year ended December 31, 2015. The 199% increase was due to the increase in parking rates and increase occupancy in the existing malls and corporate buildings as well as the opening of the multi-level parking in the Starmall Las Pinas complex.
- Real estate sales decreased from ₱85.3 million in the year ended December 31, 2014 to nil in the year ended December 31, 2015. The 100% decrease was due to none recognition of real estate sales with the deconsolidation of BEC.
- Other operating income decreased from ₱180.0 million in the year ended December 31, 2014 to ₱114.3 million in the year ended December 31, 2015. The 36% decrease was due to decrease in other operating income such as realized gross profit on real estate sales, gain on derecognition of liabilities and penalties and other fees charged to tenants.

Finance Income

Finance income decreased from ₱35.6 million in the year ended December 31, 2014 to ₱23.9 million in the year ended December 31, 2015. The 33% decrease resulted primarily from the decrease in available-for-sale financial assets of the Group.

Costs and Expenses

Operating Expenses

Cost and expenses increased from ₱1.1 billion in the year ended December 31, 2014 to ₱1.2 billion in the year ended December 31, 2015. The 14% increase in the account was primarily attributable to the following:

- Increase in depreciation and amortization by 12% from ₱427.2 million in the year ended December 31, 2014 to ₱479.5 million in the year ended December 31, 2015 due to additional depreciation from the newly opened malls and corporate building.
- Increase in outside services by 26% from ₱161.4 in the year ended December 31, 2014 to ₱202.9 million in the year ended December 31, 2015 due to the increase in manpower and agency fees for the operations of the malls and office buildings.
- Increase in rentals by 2% from ₱104.9 million in the year ended December 31, 2013 to ₱107.3 million in the year ended December 31, 2015 due to the increase in rental payments for the parcels of land in which the Worldwide Corporate Center, Starmall Taguig, and Starmall Talisay are located.

- Increase in salaries and employee benefits by 26% from ₱103.6 million in the year ended December 31, 2014 to ₱130.7 million in the year ended December 31, 2015 due to the increase in manpower for the operations and management of the new and existing malls and office buildings.
- Increase in taxes and licenses by 28% from ₱54.1 million in the year ended December 31, 2014 to ₱69.5 million in the year ended December 31, 2015 due to additional taxes with the increase of the Group's investment portfolio.
- Increase in light and power by 53% from ₱39.4 million in the year ended December 31, 2014 to ₱60.2 million in the year ended December 31, 2015 due to the increase in consumption and rate of utilities as well as due to the newly opened malls and corporate buildings.
- Increase in repairs and maintenance by 23% from ₱47.3 million in the year ended December 31, 2013 to ₱58.0 million in the year ended December 31, 2014 due to the refurbishment of the older malls and WCC building.
- Increase in advertising and promotion by 29% from ₱23.4 million in the year ended December 31, 2014 to ₱30.1 million in the year ended December 31, 2015 due to increase in advertorials for the marketing and promotion of the malls and corporate buildings.
- Increase in professional fees by 61% from ₱16.9 million in the year ended December 31, 2014 to ₱27.3 million in the year ended December 31, 2015 as a result of increase in audit and other professional fees paid in 2015.
- Decrease in cost of real estate sales by 100% from ₱66.1 million in the year ended December 31, 2014 to nil in the year ended December 31, 2015 due to the non-recognition of real estate sales with the deconsolidation of BEC in 2014.
- Increase in other operating expenses by 70% from ₱58.5 million in the year ended December 31, 2013 to ₱99.2 million in the year ended December 31, 2015 primarily due to the recognition of impairment losses on accounts receivables in 2015.

Interest and Financing Charges

Interest and financing charges decreased by 21% from ₱64.5 million in the year ended December 31, 2014 to ₱50.5 million in the year ended December 31, 2015. This was decrease in interest on borrowings due to capitalization of the borrowing cost for the year.

Loss from Sale of AFS Financial Asset

The company incurred a loss amounting to ₱0.22 million with the disposal of its available-for-sale financial assets in 2015.

Provision for Income Tax

Tax expense for the year ended December 31, 2015 is ₱405.1 million and increased by 138% from ₱170.1 million for the year ended December 31, 2014. This is due to the primarily to the deferred tax liabilities on rental income and capitalized interest.

Other Comprehensive Income (Loss)

The Group reported a net gain for the year ended December 31, 2014 in the amount of ₱58.5 million while it incurred a net loss for the year ended December 31, 2015 in the amount of ₱1.49 billion arising primarily from fair value gains and losses on available-for-sale financial assets in the respective periods.

Net Income

As a result of the foregoing, the Company incurred total comprehensive loss for the year ended December 31, 2015 in the amount of ₱583.9 million.

For the year ended December 31, 2015, there were no seasonal aspects that had a material effect on the financial condition or results of operations of the Company. Neither were there any trends, events or uncertainties that have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations. The Company is not aware of events that will cause a material change in the relationship between the costs and revenues.

FINANCIAL CONDITION

As of December 31, 2015 vs. December 31, 2014

Total assets as of December 31, 2014 were ₱19.6 billion compared to ₱31.8 billion as of December 31, 2015, or a 62% increase. This was due to the following:

- Cash and cash equivalents including short term cash investments decreased by 48% from ₱1.9 billion as of December 31, 2014 to ₱1.0 billion as of December 31, 2015 as disbursements made for the construction of new malls and corporate building as well as purchase of land to be used for future project sites.
- Trade Receivables – net increased by 151% from ₱608.2 million as of December 31, 2014 to ₱1.52 billion as of December 31, 2015 mainly due increase in rental revenue with the opening of the new malls and corporate building.
- Due from related parties decreased by 8% from ₱4.0 billion as of December 31, 2014 to ₱3.7 billion as of December 31, 2015 primarily due to settlements from affiliates.
- Available for sale financial assets increased by 1,045% from ₱343.9 million as of December 31, 2014 to ₱3.94 billion as of December 31, 2015 due acquisition of VLL shares by MC after its disposal of its investment in STR shares.
- Prepayments and other current assets increased by 36% from ₱1.4 billion as of December 31, 2014 to ₱1.9 billion as of December 31, 2015 due mainly to the increase in input taxes resulting from purchases made for the construction of new malls and office buildings as well as creditable withholding taxes.
- Property and equipment decreased by 69% from ₱201.6 million as of December 31, 2014 to ₱61.0 million as of December 31, 2015 due to reclassification made for various equipment to investment property account and retirement of aged equipment.
- Investment properties increased by 81% from ₱10.6 billion as of December 31, 2014 to ₱19.2 billion as of December 31, 2015. The increase was due to the construction and development of new projects and purchase of various properties to be used for commercial development. .
- Other non-current assets increased by 7% from ₱150.0 million as of December 31, 2014 to ₱161.0 million as of December 31, 2015 due to the increase in refundable deposits.

Total liabilities as of December 31, 2014 were ₱7.6 billion compared to ₱14.9 billion as of December 31, 2015, or a 96% increase. This was due to the following:

- Liability for land acquisition increased by 104% from ₱270.2 million as of December 31, 2014 from ₱552.2 million as of December 31, 2015 due to the land acquired on account during the year for new project sites.
- Interest bearing loans and borrowings increased by 119% from ₱4.9 billion as of December 31, 2014 from ₱10.7 billion as of December 31, 2015 due to the additional interest bearing loans obtained from various banks in 2015 for the development of new projects.

- Accounts and other payables increased by 15% from ₱1.5 billion as of December 31, 2014 to ₱1.7 billion as of December 31, 2015 due mainly to the increase in estimated liability for property development and payable to suppliers and contractors for the construction and development of new projects.
- Due to related parties increased by 298% from ₱180.9 million as of December 31, 2014 to ₱719.9 million as of December 31, 2015 to advances made from affiliates in 2015.
- Income tax payable decreased by 33% from ₱55.9 million as of December 31, 2014 to ₱37.2 million as of December 31, 2015 to due to settlement for the year.
- Retirement benefit obligation increased by 19% from ₱50.8 million as of December 31, 2014 to ₱50.8 million as of December 31, 2015 due to increased headcount and actuarial adjustments.
- Deferred tax liabilities posted an increase of 358% from ₱73.5 million as of December 31, 2014 to ₱336.6 million as of December 31, 2015. The difference is due to the increase in temporary tax differences of MAPI and MC.
- Other non-current liabilities and refundable deposits increased by 23% from ₱548.3 million as of December 31, 2014 to ₱676.4 million as of December 31, 2015 due to the increase in security deposits from tenants of the existing malls and corporate buildings.

Total stockholder's equity increased from ₱11.9 billion as of December 31, 2014 to ₱16.9 billion as of December 31, 2015 to due to the earnings for the year.

Further, there are no material events and uncertainties known to management that would impact or change reported financial information and condition on the Company.

REVIEW OF YEAR END 2014 VS YEAR END 2013

RESULTS OF OPERATIONS

Revenues

Operating revenue

Operating revenue increased from ₱1.58 billion in the year ended December 31, 2013 to ₱1.92 billion in the year ended December 31, 2014. The 21% increase in the account was primarily attributable to the following:

- Rental income increased from ₱1.43 billion in the year ended December 31, 2013 to ₱1.62 billion in the year ended December 31, 2014. The 13% increase was due to the increase in occupancy of Starmall Las Piñas Annex, Starmall EDSA-Shaw, Starmall Alabang, Starmall San Jose del Monte and Worldwide Corporate Center and the opening of Starmall Prima Taguig and Starmall Talisay.
- Parking fee revenue increased from ₱36.7 million in the year ended December 31, 2013 to ₱40.8 million in the year ended December 31, 2014. The 11% increase was due to the increase in parking rates and increase occupancy in the existing malls and corporate office building.
- Real estate sales increased from ₱19.5 million in the year ended December 31, 2013 to ₱85.3 million in the year ended December 31, 2014. The 336% increase was due to the sale of BEC of portion of its undeveloped land in 2014.
- Other operating income increased from ₱95.7 million in the year ended December 31, 2013 to ₱180.0 million in the year ended December 31, 2014. The 88% increase was due to increase in other operating income such as realized gross profit on real estate sales, gain on derecognition of liabilities and penalties and other fees charged to tenants.

Finance Income

Finance income increased from ₱21.5 million in the year ended December 31, 2013 to ₱35.6 million in the year ended December 31, 2014. The 65% increase resulted from interest income on the Group's available-for-sale financial assets and short-term placements.

Equity in Net Earnings of an Associate

Equity in net earnings of an associate decreased from ₱113.9 million in the year ended December 31, 2013 to nil in the year ended December 31, 2014. The 100% decrease was due to disposal of remaining 4.1% shareholdings in VLL in May 2013.

Gain from Disposal of an Investment in an Associate

In May 2013, the Company sold its remaining shares of investment in VLL with a carrying amount of ₱1.79 billion for a total consideration of ₱2.79 billion and recognizing a gain of ₱993.9 million. There was no similar transaction made in 2014.

Costs and Expenses

Operating Expenses

Cost and expenses increased from ₱921.2 million in the year ended December 31, 2013 to ₱1.1 billion in the year ended December 31, 2014. The 21% increase in the account was primarily attributable to the following:

- Increase in depreciation and amortization by 19% from ₱358.4 million in the year ended December 31, 2013 to ₱427.2 million in the year ended December 31, 2014 due to additional depreciation from new or refurbished mall equipment and the full year depreciation on the fair value adjustment on the properties owned by MC during the consolidation in 2012.

- Increase in service fees by 6% from ₱152.9 in the year ended December 31, 2013 to ₱161.4 million in the year ended December 31, 2014 due to the increase in manpower and agency fees for the operations of the malls and office building.
- Increase in rentals by 25% from ₱83.8 million in the year ended December 31, 2013 to ₱104.9 million in the year ended December 31, 2014 due to the increase in rental payments for the parcels of land in which the Worldwide Corporate Center, Starmall Taguig, and Starmall Talisay are located.
- Increase in salaries and employee benefits by 4% from ₱100.0 million in the year ended December 31, 2013 to ₱103.6 million in the year ended December 31, 2014 due to the increase in manpower for the operations and management of the existing malls and office building and the construction and development of new projects of the Group.
- Decrease in taxes and licenses by 1% from ₱54.9 million in the year ended December 31, 2013 to ₱54.1 million in the year ended December 31, 2014 due to the discounts on early payments of real property taxes of the various investment properties and business permits and other licenses for the operations of the malls and the corporate building.
- Increase in light and power by 12% from ₱35.3 million in the year ended December 31, 2013 to ₱39.4 million in the year ended December 31, 2014 due to the increase in consumption and rate of utilities.
- Increase in repairs and maintenance by 36% from ₱34.8 million in the year ended December 31, 2013 to ₱47.3 million in the year ended December 31, 2014 due to the repairs made to various equipment of the older malls and WCC building.
- Increase in advertising and promotion by 28% from ₱18.3 million in the year ended December 31, 2013 to ₱23.4 million in the year ended December 31, 2014 due to increase in marketing, advertising and promotions for the malls and corporate buildings.
- Increase in professional fees by 11% from ₱15.2 million in the year ended December 31, 2013 to ₱16.9 million in the year ended December 31, 2014 as a result of increase in audit and other professional fees paid in 2014.
- Increase in insurance expense by 3% from ₱14.7 million in the year ended December 31, 2013 to ₱15.1 million in the year ended December 31, 2014 due to the lower insurance premiums paid for the buildings, equipment and service vehicles used in operations in 2014.
- Increase in cost of real estate sales by 468% from ₱11.6 million in the year ended December 31, 2013 to ₱66.1 million in the year ended December 31, 2014 due to the sale of BEC of portion of its undeveloped land in 2014.
- Increase in other operating expenses by 42% from ₱41.1 million in the year ended December 31, 2013 to ₱58.5 million in the year ended December 31, 2014 due to the increase in various expenses such as representation, transportation, and supplies for the operations of the existing malls and corporate building and construction management of the new projects as well as commission for real estate sales in 2014.

Interest and Financing Charges

Interest and financing charges increased by 113% from ₱30.4 million in the year ended December 31, 2013 to ₱64.5 million in the year ended December 31, 2014. This was due additional loans incurred for the construction of the new projects of the group.

Loss from Disposal of an Investment in an Associate

In order to focus in the mall and office building development and operations, the Company sold 100% of its 1,009,960 shares of its investment in BEC, with a carrying amount of ₱535.3 million for a total consideration of ₱507.2 million in December 2014. The Group recognized a loss from this transaction amounting to ₱28.2 million.

Provision for Income Tax

Tax expense for the year ended December 31, 2014 is ₱170.1 million and decreased by 13% from ₱195.6 million for the year ended December 31, 2013. This is due to the primarily to the deferred tax income relating to reversal of temporary difference.

Other Comprehensive Income (Loss)

The Group reported a net gain for the year ended December 31, 2014 in the amount of ₱58.5 million while it incurred a net loss for the year ended December 31, 2013 in the amount of ₱79.5 million arising primarily from fair value gains and losses on available-for-sale financial assets in the respective periods.

Net Income

As a result of the foregoing, the Company's comprehensive income decreased from ₱1.5 billion in the year ended December 31, 2013 to ₱634.3 million in the year ended December 31, 2014.

For the year ended December 31, 2014, there were no seasonal aspects that had a material effect on the financial condition or results of operations of the Company. Neither were there any trends, events or uncertainties that have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations. The Company is not aware of events that will cause a material change in the relationship between the costs and revenues.

Liability for land acquisition increased by 583% from ₱39.5 million as of December 31, 2013 from ₱270.2 million as of December 31, 2014 due to the land acquired during the year for new project sites.

Interest bearing loans and borrowings increased by 177% from ₱1.8 billion as of December 31, 2013 from ₱4.9 billion as of December 31, 2014 due to the additional interest bearing loans obtained in 2014.

Accounts and other payables increased by 51% from ₱1.0 billion as of December 31, 2013 to ₱1.5 billion as of December 31, 2014 due mainly to the increase in accounts payable to suppliers and contractors for the construction and development of new projects.

Due to related parties decreased by 29% from ₱254.8 million as of December 31, 2013 to ₱180.9 million as of December 31, 2014 to payments made to affiliates in 2014.

Income tax payable increased by 33% from ₱41.8 million as of December 31, 2013 to ₱55.9 million as of December 31, 2014 due to the income tax payable of MC.

Other current liabilities increased by 99% from ₱25.1 million as of December 31, 2013 to ₱0.3 million as of December 31, 2014 due to payments made to creditors in 2014.

Retirement benefit obligation increased by 36% from ₱37.3 million as of December 31, 2013 to ₱50.8 million as of December 31, 2014 due to increased headcount and actuarial adjustments.

Deferred gross profit decreased by 100% from ₱27.7 million as of December 31, 2013 to nil as of December 31, 2014 due to the recognition of deferred gross profit on the real estate sales of MC.

Deferred tax liabilities posted a decrease of 25% from ₱98.2 million as of December 31, 2013 to ₱73.5 million as of December 31, 2014. The difference is due to the decrease in temporary tax differences of MAPI and MC.

Other non-current liabilities and refundable deposits increased by 10% from ₱500.1 million as of December 31, 2013 to ₱548.3 million as of December 31, 2014 due to the increase in security deposits from tenants of the existing malls and corporate building.

Material Changes to the Company's Statement of income for the year ended December 31, 2014 compared to the year ended December 31, 2013 (increase/decrease of 5% or more)

Rental income increased from ₱1.43 billion in the year ended December 31, 2013 to ₱1.62 billion in the year ended December 31, 2014. The 13% increase was due to the increase in occupancy of Starmall Las Piñas Annex, Starmall EDSA-Shaw, Starmall Alabang, Starmall San Jose del Monte and Worldwide Corporate Center and the opening of Starmall Prima Taguig and Starmall Talisay.

Parking fee revenue increased from ₱36.7 million in the year ended December 31, 2013 to ₱40.8 million in the year ended December 31, 2014. The 11% increase was due to the increase in parking rates and increase occupancy in the existing malls and corporate office building.

Real estate sales increased from ₱19.5 million in the year ended December 31, 2013 to ₱85.3 million in the year ended December 31, 2014. The 336% increase was due to the sale of BEC of portion of its undeveloped land in 2014.

Other operating income increased from ₱95.7 million in the year ended December 31, 2013 to ₱180.0 million in the year ended December 31, 2014. The 88% increase was due to increase in other operating income such as realized gross profit on real estate sales, gain on derecognition of liabilities and penalties and other fees charged to tenants.

Finance income increased from ₱21.5 million in the year ended December 31, 2013 to ₱35.6 million in the year ended December 31, 2014. The 65% increase resulted from interest income on the Group's available-for-sale financial assets and short-term placements.

Equity in net earnings of an associate decreased from ₱113.9 million in the year ended December 31, 2013 to nil in the year ended December 31, 2014. The 100% decrease was due to disposal of remaining 4.1% shareholdings in VLL in May 2013.

Gain on sale of investment in an associate decreased by 100% from ₱993.9 million in the year ended December 31, 2013 to nil in the same period in 2014 due to disposal of remaining 4.1% shareholdings in VLL in May 2013.

Increase in depreciation and amortization by 19% from ₱358.4 million in the year ended December 31, 2013 to ₱427.2 million in the year ended December 31, 2014 due to additional depreciation from new or refurbished mall equipment and the full year depreciation on the fair value adjustment on the properties owned by MC during the consolidation in 2012.

Increase in service fees by 6% from ₱152.9 in the year ended December 31, 2013 to ₱161.4 million in the year ended December 31, 2014 due to the increase in manpower and agency fees for the operations of the malls and office building.

Increase in rentals by 25% from ₱83.8 million in the year ended December 31, 2013 to ₱104.9 million in the year ended December 31, 2014 due to the increase in rental payments for the parcels of land in which the Worldwide Corporate Center, Starmall Taguig, and Starmall Talisay are located.

Increase in salaries and employee benefits by 4% from ₱100.0 million in the year ended December 31, 2013 to ₱103.6 million in the year ended December 31, 2014 due to the increase in manpower for the operations and management of the existing malls and office building and the construction and development of new projects of the Group.

Decrease in taxes and licenses by 1% from ₱54.9 million in the year ended December 31, 2013 to ₱54.1 million in the year ended December 31, 2014 due to the discounts on early payments of real property taxes of the various investment properties and business permits and other licenses for the operations of the malls and the corporate building.

Increase in light and power by 12% from ₱35.3 million in the year ended December 31, 2013 to ₱39.4 million in the year ended December 31, 2014 due to the increase in consumption and rate of utilities.

Increase in repairs and maintenance by 36% from ₱34.8 million in the year ended December 31, 2013 to ₱47.3 million in the year ended December 31, 2014 due to the repairs made to various equipment of the older malls and WCC building.

Increase in advertising and promotion by 28% from ₱18.3 million in the year ended December 31, 2013 to ₱23.4 million in the year ended December 31, 2014 due to increase in marketing, advertising and promotions for the malls and corporate buildings.

Increase in professional fees by 11% from ₱15.2 million in the year ended December 31, 2013 to ₱16.9 million in the year ended December 31, 2014 as a result of increase in audit and other professional fees paid in 2014.

Increase in cost of real estate sales by 468% from ₱11.6 million in the year ended December 31, 2013 to ₱66.1 million in the year ended December 31, 2014 due to the sale of BEC of portion of its undeveloped land in 2014.

Increase in other operating expenses by 42% from ₱41.1 million in the year ended December 31, 2013 to ₱58.5 million in the year ended December 31, 2014 due to the increase in various expenses such as representation, transportation, and supplies for the operations of the existing malls and corporate building and construction management of the new projects as well as commission for real estate sales in 2014.

Interest and financing charges increased by 113% from ₱30.4 million in the year ended December 31, 2013 to ₱64.5 million in the year ended December 31, 2014. This was due additional loans incurred for the construction of the new projects of the group.

Loss on disposal of a subsidiary increased by 100% from nil for the year ended December 31, 2013 to ₱28.2 million in the year ended December 31, 2014 with the disposal of the Company of 100% of its 1,009,960 shares of its investment in BEC in December 2014.

Tax expense for the year ended December 31, 2014 is ₱170.1 million and decreased by 13% from ₱195.6 million for the year ended December 31, 2013. This is due to the primarily to the deferred tax income relating to reversal of temporary difference.

There are no other material changes in the Company's financial position (changes of 5% or more) and condition that will warrant a more detailed discussion. Further, there are no material events and uncertainties known to management that would impact or change reported financial information and condition on the Company.

VI. COMPLIANCE WITH LEADING PRACTICE ON CORPORATE GOVERNANCE

The Company's Board has adopted a Revised Manual on Corporate Governance. The Company's Manual on Corporate Governance describes the terms and conditions by which the Company intends to conduct sound corporate governance practices that are consistent with the relevant laws and regulations of the Republic of the Philippines, and which seek to enhance business transparency and build shareholder value. Ultimate responsibility and oversight of the Company's adherence to superior corporate governance practices rests with the Board of Directors. As a policy matter, the Board will hold monthly meetings, at which any number of relevant corporate governance issues may be raised for discussion.

Practical oversight of the Company's corporate governance standards is exercised through the Board's three standing committees:

- The Audit Committee is charged with internal audit oversight over all of the Company's business transactions and the effective management of risk.
- The Nomination Committee is charged with ensuring that potential candidates for the Board are fully qualified as well as ensuring that the Board maintains adequate independent membership.
- The Compensation and Remuneration Committee is charged with ensuring that fair and competitive compensation policies are maintained.

The Company is committed to building a solid reputation for sound corporate governance practices, including a clear understanding by its Directors of the Company's strategic objectives, structures to ensure that such objectives are realized, systems to ensure the effective management of risks and the systems to ensure the Company's obligations are identified and discharged in all aspects of its business. Each January, the Company will issue a certification to the Philippines Securities and Exchange Commission and the Philippine Stock Exchange that it has fulfilled its corporate governance obligations.

As of December 31, 2015, there are no known material deviations from the Company's Manual of Corporate governance. The Company is taking further steps to enhance adherence to principles and practices of good corporate governance

Item 1. Business

Overview

Starmalls Inc. (the “Company”) was incorporated in Metro Manila, Philippines, on October 16, 1969 originally to pursue mineral exploration. After obtaining SEC approval in 2004, the Company changed its primary business and is now presently engaged in investment, real estate and leasing business.

On May 14, 2012, the Company’s BOD authorized the change in name of the Company from Polar Property Holdings Corp. to Starmalls, Inc. The SEC approved the Company’s application for the change in corporate name on June 22, 2012.

As of December 31, 2015 and 2014 the Company has equity interests in the following entities:

Subsidiaries / Associate	Percentage of Ownership	
	2015	2014
Subsidiaries:		
Masterpiece Asia Properties, Inc. (MAPI)	100.0%	100.0%
Manuela Corporation (MC)	98.4%	98.4%

The Company and its subsidiaries are hereinafter collectively referred to as the Group. All subsidiaries were incorporated in the Philippines.

The Company’s principal place of business is at the 3rd Floor Starmall Las Piñas, CV Starr Avenue, Philamlife Village, Pamplona, Las Piñas City.

Recent Developments

On November 10, 2015, Vista Land & Lifescapes, Inc. (VLL) signed an agreement with Fine Properties, Inc. (“Fine Properties”), Althorp Holdings, Inc., Manuela Corporation, Mr. Manuel B. Villar, Jr. and Mr. Manuel Paolo A. Villar (collectively, the “Fine Group”) to acquire approximately 88.25% or 7,436.22 million shares of the Company for a total consideration of ₱33,537.36 million.

In December 2015, VLL acquired 6,692.93 million shares of Starmalls, Inc. from the Fine Group for a total consideration of ₱30,185.11 million (the “First Closing Date”). As at December 31, 2015, VLL completed its acquisition of Starmalls’ shares representing 79.43% or 6.69 billion shares from the Fine Group. Further, VLL has a tender offer to acquire 989.73 million more shares from minority shareholders which started on January 4, 2016 and expired on February 15, 2016. After the tender offer, 6.97 million shares tendered or 0.08% of the total shares of Starmalls, Inc.

The second closing date which is after the tender offer period in February 10, 2016, VLL acquired the remaining 743.29 million shares of Starmalls, Inc. from the Fine Group in the amount of ₱3,352.25 million. As at February 24, 2016, VLL completed its acquisition of the shares of Starmalls, Inc. representing 88.34% or 7.44 billion shares.

Brittany Estates Corporation (BEC). is engaged in developing and selling real estate properties, particularly residential house and lot. In December 2014, in order to focus in the mall and office building development and operations, the Company disposed of its shareholdings in BEC.

MC redeveloped Starmall EDSA-Shaw and Starmall Alabang in 2013. In 2015, it opened the redeveloped Starmall Las Piñas complex which includes a multi-level parking. As of end of 2015, construction of a corporate building in Las Piñas City is on-going.

Competition

Our shopping malls compete with other shopping malls in the geographic areas in which they operate. The other major shopping mall operators in the Mega Manila are Robinsons, SM and Ayala. We believe that we are well-positioned to face increased competition in the shopping mall industry given the competitive advantages we have including, among other things, the location of our existing shopping malls, the land bank of the Company and its affiliates, our balance sheet strength, a successful tenant mix and selection criteria and our strategic partnership with the Villar Family Companies. Our experience and understanding of the retail industry has also been a contributing factor to our competitive advantage in the industry.

WCC competes with other BPO commercial centers and office buildings in the geographic area in which it operates. The major BPO office building commercial center developers in Metro Manila are Ayala Land, Robinsons Land, Megaworld and Filinvest Land. These developers have undertaken mixed-use residential, office and commercial developments in and around the major CBDs in Metro Manila as well as in key provincial cities. Apart from these real estate companies, there are many other independent developers in Metro Manila who have undertaken construction of new BPO buildings or conversion of existing buildings into BPO facilities in anticipation of a growing demand for BPO office spaces. We believe that we are well-positioned to face increased competition in the BPO commercial development given the competitive advantages we have including, among other things, the strategic location of our existing BPO commercial center, our strong and stable partnership with our existing BPO tenants and our expertise in flexible build-out arrangements to suit the requirements of our BPO tenants. Our experience and understanding of the BPO industry has also been a contributing factor to our competitive advantage in the industry

Suppliers

Site development and construction work is contracted out to various qualified and accredited independent contractors. For larger projects, such as major repair or construction work, contracts are awarded on the basis of competitive bidding. For operational repairs and maintenance projects, we hire contractors without a competitive process based on our previous experience with the contractor. In all cases, our accreditation procedure takes into consideration each contractor's experience, financial capability, resources and track record of adhering to quality, cost and time of completion commitments. We maintain relationships with various accredited independent contractors and deal with each of them on an arm's length basis. We are not and do not expect to be dependent upon one or a limited number of suppliers or contractors.

Dependence on a Few Major Customers

The target customer segment of the commercial leasing business consists of broad C retail consumers. We believe that our shopping malls address the needs and aspirations of our target customers through our wide selection of retail outlets, supermarkets and department stores, together with other attractions, such as food courts, cinemas and other entertainment facilities. We attract local chains and franchises, to satisfy the preferences of our target customers.

The management team also took a proactive approach towards managing the tenant mix at its existing assets to ensure optimal alignment with the needs of its target market, including removing and replacing delinquent tenants with tenants that provide more suitable retail concepts and offerings and reorganizing mall layouts to address customers' needs as well as increasing the efficiency of available leasable area.

The remaining house and lot business is not dependent on repeat business from customers. MC has a marketing agreement with Crown Asia Properties, Inc., a subsidiary of VLL, which has a broad market base including local and foreign buyers.

Transactions with related parties

The Company and its subsidiaries, in their ordinary course of business, engage in significant commercial transactions with certain companies controlled by the Villar Family, including the Villar Family Companies and their respective subsidiaries. We have signed a memorandum of agreement with certain subsidiaries of Vista Land under which we have been granted a right of first refusal and right of first offer in respect of certain commercial properties by such VLL subsidiaries.

The Company's policy with respect to related party transactions is to ensure that these transactions are entered into on terms that are comparable to those available from unrelated third-parties.

Government approvals

The Company secures various government approvals such as license to sell, building and development permits, environmental compliance certificate, business permits, etc. as part of the normal course of its business.

The Company has no principal product that has pending government approval as of December 31, 2015.

Effect of Existing or Probable Governmental Regulations

By the nature of its business, the Company's subsidiaries are subject to governmental regulations on its land development and marketing activities, which includes, among others, zoning and environmental laws, development permit and license to sell regulations. The Company's subsidiaries comply with the said regulations in the regular conduct of its business operations.

As of December 31, 2015, the Company is not aware of any existing or probable governmental regulations that will have an effect on the Company's business operations.

Compliance With Environmental Laws

Prior to any land development activity, the subsidiaries of the Company secure the requisite environmental permits, including environmental compliance certificate and drainage permit for the sewage treatment plants, from the appropriate government agencies.

Costs and Effects of Compliance with Environmental Laws

The subsidiaries of the Company pay such amount as may be imposed by the appropriate government agencies for the procurement of all necessary environmental permits prior to commencement of any development project. The costs are generally minimal and vary from time to time.

Unless pertinent environmental laws are complied with, and requisite permits are secured, the Company's subsidiaries cannot and do not proceed with its projects.

Research and Development Costs

Research and development activities, such as market research, training and contractor's development programs, are treated as normal operating expense. For 2014, the amount that the Company spent for research and development is minimal and does not constitute a significant percentage of the Company's revenues.

Employees

As of December 31, 2015, the Company and its subsidiaries, had a total of 190 employees. This is broken down by function as follows:

Function	Number of employees
Operations	48
Administrative	85
Technical	57
Total	190

The Company has no collective bargaining agreements with its employees and none of the Company's employees belong to a union. In addition to the regular remuneration packages being given by the Company, it also adopts a performance-based incentive scheme to employees holding strategic positions, such as foreign travel grants. The Company has no employee stock option plan.

Risks related to the Companies Business

Each of the businesses of the Company and its Subsidiaries would inevitably involve some risks factors such as:

- Competition;
- Socio-economic conditions of the country;
- Effect of the changes in global economy;
- Foreign exchange devaluation;
- Changes in the country's political and economic situation;
- Inflation of prices affecting the cost and expenses;
- Reforms in the applicable rules and regulations affecting the Philippine Real Estate industry; and
- Changes in Philippine and International interest rates, with respect to the Company's borrowings.

To mitigate the aforementioned risks, the Company shall continue to adopt prudence in financial management and discipline in the area of operational controls, policies and procedures. With respect to competitive pressures among the industry players, the Company shall continue to compete through project concept, quality, affordability, and location of projects.

Item 3. Legal Proceedings

The Group is currently involved in litigation over portions of its properties located in Molino, Bacoar, Cavite comprising of an aggregate area of 117,480 square meters (the "Bacoar Property"). The case is an administrative action pending before the Land Management Bureau, the government agency responsible for administering disposable land in the Philippines. The plaintiffs claim to be the heirs of the rightful owner of the Bacoar Property and dispute the authenticity of MAPI's title; however, the plaintiffs do not possess a certificate of title over the property. A civil case based on a similar cause of action has been dismissed by the Regional Trial Court of Bacoar.

There is another case pending before the Regional Trial Court of Bacoar, Cavite filed by MAPI for quieting of title and annulment of titles involving portions of the Bacoar Property. The Judicial Dispute Resolution has been terminated and the case shall now be re-raffled to another court.

The rehabilitation of MC was terminated on January 25, 2012. The final report and accounting has been completed and the rehabilitation proceedings have been terminated on November 29, 2013.

We are subject to various civil lawsuits and legal actions arising in the ordinary course of our business. Typical cases include adverse claims regarding the title to parcels of land. In the Group's opinion, none of the lawsuits or legal actions to which we are currently subject will materially affect the daily operations of our business or have a material adverse effect on our consolidated financial position and results of operations.

REVIEW OF YEAR END 2015 VS YEAR END 2014

RESULTS OF OPERATIONS

Revenues

Operating revenue

Operating revenue increased from ₱1.92 billion in the year ended December 31, 2014 to ₱2.62 billion in the year ended December 31, 2015. The 36% increase in the account was primarily attributable to the following:

- Rental income increased from ₱1.62 billion in the year ended December 31, 2014 to ₱2.38 billion in the year ended December 31, 2015. The 47% increase was due to the increase in occupancy of Starmall Las Piñas Annex, Starmall EDSA-Shaw, Starmall Alabang, Starmall San Jose del Monte, Starmall Prima Taguig and Starmall Talisay and Worldwide Corporate Center as well as the opening of Starmall Prima Daang Hari, Starmall Prima Sta. Rosa, Starmall Imus and Optimum Bank Building.

- Parking fee revenue increased from ₱40.8 million in the year ended December 31, 2014 to ₱121.7 million in the year ended December 31, 2015. The 199% increase was due to the increase in parking rates and increase occupancy in the existing malls and corporate buildings as well as the opening of the multi-level parking in the Starmall Las Pinas complex.
- Real estate sales decreased from ₱85.3 million in the year ended December 31, 2014 to nil in the year ended December 31, 2015. The 100% decrease was due to none recognition of real estate sales with the deconsolidation of BEC.
- Other operating income decreased from ₱180.0 million in the year ended December 31, 2014 to ₱114.3 million in the year ended December 31, 2015. The 36% decrease was due to decrease in other operating income such as realized gross profit on real estate sales, gain on derecognition of liabilities and penalties and other fees charged to tenants.

Finance Income

Finance income decreased from ₱35.6 million in the year ended December 31, 2014 to ₱23.9 million in the year ended December 31, 2015. The 33% decrease resulted primarily from the decrease in available-for-sale financial assets of the Group.

Costs and Expenses

Operating Expenses

Cost and expenses increased from ₱1.1 billion in the year ended December 31, 2014 to ₱1.2 billion in the year ended December 31, 2015. The 14% increase in the account was primarily attributable to the following:

- Increase in depreciation and amortization by 12% from ₱427.2 million in the year ended December 31, 2014 to ₱479.5 million in the year ended December 31, 2015 due to additional depreciation from the newly opened malls and corporate building.
- Increase in outside services by 26% from ₱161.4 in the year ended December 31, 2014 to ₱202.9 million in the year ended December 31, 2015 due to the increase in manpower and agency fees for the operations of the malls and office buildings.
- Increase in rentals by 2% from ₱104.9 million in the year ended December 31, 2013 to ₱107.3 million in the year ended December 31, 2015 due to the increase in rental payments for the parcels of land in which the Worldwide Corporate Center, Starmall Taguig, and Starmall Talisay are located.
- Increase in salaries and employee benefits by 26% from ₱103.6 million in the year ended December 31, 2014 to ₱130.7 million in the year ended December 31, 2015 due to the increase in manpower for the operations and management of the new and existing malls and office buildings.
- Increase in taxes and licenses by 28% from ₱54.1 million in the year ended December 31, 2014 to ₱69.5 million in the year ended December 31, 2014 due to additional taxes with the increase of the Group's investment portfolio.
- Increase in light and power by 53% from ₱39.4 million in the year ended December 31, 2014 to ₱60.2 million in the year ended December 31, 2015 due to the increase in consumption and rate of utilities as well as due to the newly opened malls and corporate buildings.
- Increase in repairs and maintenance by 23% from ₱47.3 million in the year ended December 31, 2013 to ₱58.0 million in the year ended December 31, 2014 due to the refurbishment of the older malls and WCC building.
- Increase in advertising and promotion by 29% from ₱23.4 million in the year ended December 31, 2014 to ₱30.1 million in the year ended December 31, 2015 due to increase in advertorials for the marketing and promotion of the malls and corporate buildings.

- Increase in professional fees by 61% from ₱16.9 million in the year ended December 31, 2014 to ₱27.3 million in the year ended December 31, 2015 as a result of increase in audit and other professional fees paid in 2015.
- Decrease in cost of real estate sales by 100% from ₱66.1 million in the year ended December 31, 2014 to nil in the year ended December 31, 2015 due to the non-recognition of real estate sales with the deconsolidation of BEC in 2014.
- Increase in other operating expenses by 70% from ₱58.5 million in the year ended December 31, 2013 to ₱99.2 million in the year ended December 31, 2015 primarily due to the recognition of impairment losses on accounts receivables in 2015.

Interest and Financing Charges

Interest and financing charges decreased by 21% from ₱64.5 million in the year ended December 31, 2014 to ₱50.5 million in the year ended December 31, 2015. This was decrease in interest on borrowings due to capitalization of the borrowing cost for the year.

Loss from Sale of AFS Financial Asset

The company incurred a loss amounting to ₱0.22 million with the disposal of its available-for-sale financial assets in 2015.

Provision for Income Tax

Tax expense for the year ended December 31, 2015 is ₱405.1 million and increased by 138% from ₱170.1 million for the year ended December 31, 2014. This is due to the primarily to the deferred tax liabilities on rental income and capitalized interest.

Other Comprehensive Income (Loss)

The Group reported a net gain for the year ended December 31, 2014 in the amount of ₱58.5 million while it incurred a net loss for the year ended December 31, 2015 in the amount of ₱1.49 billion arising primarily from fair value gains and losses on available-for-sale financial assets in the respective periods.

Net Income

As a result of the foregoing, the Company incurred total comprehensive loss for the year ended December 31, 2015 in the amount of ₱583.9 million.

For the year ended December 31, 2015, there were no seasonal aspects that had a material effect on the financial condition or results of operations of the Company. Neither were there any trends, events or uncertainties that have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations. The Company is not aware of events that will cause a material change in the relationship between the costs and revenues.

FINANCIAL CONDITION

As of December 31, 2015 vs. December 31, 2014

Total assets as of December 31, 2014 were ₱19.6 billion compared to ₱31.8 billion as of December 31, 2015, or a 62% increase. This was due to the following:

- Cash and cash equivalents including short term cash investments decreased by 48% from ₱1.9 billion as of December 31, 2014 to ₱1.0 billion as of December 31, 2015 as disbursements made for the construction of new malls and corporate building as well as purchase of land to be used for future project sites.
- Trade Receivables – net increased by 151% from ₱608.2 million as of December 31, 2014 to ₱1.52 billion as of December 31, 2015 mainly due increase in rental revenue with the opening of the new malls and corporate building.
- Due from related parties decreased by 8% from ₱4.0 billion as of December 31, 2014 to ₱3.7 billion as of December 31, 2015 primarily due to settlements from affiliates.
- Available for sale financial assets increased by 1,045% from ₱343.9 million as of December 31, 2014 to ₱3.94 billion as of December 31, 2015 due acquisition of VLL shares by MC after its disposal of its investment in STR shares.
- Prepayments and other current assets increased by 36% from ₱1.4 billion as of December 31, 2014 to ₱1.9 billion as of December 31, 2015 due mainly to the increase in increase in input taxes resulting from purchases made for the construction of new malls and office buildings as well as creditable withholding taxes.
- Property and equipment decreased by 69% from ₱201.6 million as of December 31, 2014 to ₱61.0 million as of December 31, 2015 due to reclassification made for various equipment to investment property account and retirement of aged equipment.
- Investment properties increased by 81% from ₱10.6 billion as of December 31, 2014 to ₱19.2 billion as of December 31, 2015. The increase was due to the construction and development of new projects and purchase of various properties to be used for commercial development. .
- Other non-current assets increased by 7% from ₱150.0 million as of December 31, 2014 to ₱161.0 million as of December 31, 2015 due to the increase in refundable deposits.

Total liabilities as of December 31, 2014 were ₱7.6 billion compared to ₱14.9 billion as of December 31, 2015, or a 96% increase. This was due to the following:

- Liability for land acquisition increased by 104% from ₱270.2 million as of December 31, 2014 from ₱552.2 million as of December 31, 2015 due to the land acquired on account during the year for new project sites.
- Interest bearing loans and borrowings increased by 119% from ₱4.9 billion as of December 31, 2014 from ₱10.7 billion as of December 31, 2015 due to the additional interest bearing loans obtained from various banks in 2015 for the development of new projects.
- Accounts and other payables increased by 15% from ₱1.5 billion as of December 31, 2014 to ₱1.7 billion as of December 31, 2015 due mainly to the increase in estimated liability for property development and payable to suppliers and contractors for the construction and development of new projects.
- Due to related parties increased by 298% from ₱180.9 million as of December 31, 2014 to ₱719.9 million as of December 31, 2015 to advances made from affiliates in 2015.

- Income tax payable decreased by 33% from ₱55.9 million as of December 31, 2014 to ₱37.2 million as of December 31, 2015 due to settlement for the year.
- Retirement benefit obligation increased by 19% from ₱50.8 million as of December 31, 2014 to ₱50.8 million as of December 31, 2015 due to increased headcount and actuarial adjustments.
- Deferred tax liabilities posted an increase of 358% from ₱73.5 million as of December 31, 2014 to ₱336.6 million as of December 31, 2015. The difference is due to the increase in temporary tax differences of MAPI and MC.
- Other non-current liabilities and refundable deposits increased by 23% from ₱548.3 million as of December 31, 2014 to ₱676.4 million as of December 31, 2015 due to the increase in security deposits from tenants of the existing malls and corporate buildings.

There are no other material changes in the Company's financial position (changes of 5% or more) and condition that will warrant a more detailed discussion. Further, there are no material events and uncertainties known to management that would impact or change reported financial information and condition on the Company.

REVIEW OF YEAR END 2014 VS YEAR END 2013

RESULTS OF OPERATIONS

Revenues

Operating revenue

Operating revenue increased from ₱1.58 billion in the year ended December 31, 2013 to ₱1.92 billion in the year ended December 31, 2014. The 21% increase in the account was primarily attributable to the following:

- Rental income increased from ₱1.43 billion in the year ended December 31, 2013 to ₱1.62 billion in the year ended December 31, 2014. The 13% increase was due to the increase in occupancy of Starmall Las Piñas Annex, Starmall EDSA-Shaw, Starmall Alabang, Starmall San Jose del Monte and Worldwide Corporate Center and the opening of Starmall Prima Taguig and Starmall Talisay.
- Parking fee revenue increased from ₱36.7 million in the year ended December 31, 2013 to ₱40.8 million in the year ended December 31, 2014. The 11% increase was due to the increase in parking rates and increase occupancy in the existing malls and corporate office building.
- Real estate sales increased from ₱19.5 million in the year ended December 31, 2013 to ₱85.3 million in the year ended December 31, 2014. The 336% increase was due to the sale of BEC of portion of its undeveloped land in 2014.
- Other operating income increased from ₱95.7 million in the year ended December 31, 2013 to ₱180.0 million in the year ended December 31, 2014. The 88% increase was due to increase in other operating income such as realized gross profit on real estate sales, gain on derecognition of liabilities and penalties and other fees charged to tenants.

Finance Income

Finance income increased from ₱21.5 million in the year ended December 31, 2013 to ₱35.6 million in the year ended December 31, 2014. The 65% increase resulted from interest income on the Group's available-for-sale financial assets and short-term placements.

Equity in Net Earnings of an Associate

Equity in net earnings of an associate decreased from ₱113.9 million in the year ended December 31, 2013 to nil in the year ended December 31, 2014. The 100% decrease was due to disposal of remaining 4.1% shareholdings in VLL in May 2013.

Gain from Disposal of an Investment in an Associate

In May 2013, the Company sold its remaining shares of investment in VLL with a carrying amount of ₱1.79 billion for a total consideration of ₱2.79 billion and recognizing a gain of ₱993.9 million. There was no similar transaction made in 2014.

Costs and Expenses

Operating Expenses

Cost and expenses increased from ₱921.2 million in the year ended December 31, 2013 to ₱1.1 billion in the year ended December 31, 2014. The 21% increase in the account was primarily attributable to the following:

- Increase in depreciation and amortization by 19% from ₱358.4 million in the year ended December 31, 2013 to ₱427.2 million in the year ended December 31, 2014 due to additional depreciation from new or refurbished mall equipment and the full year depreciation on the fair value adjustment on the properties owned by MC during the consolidation in 2012.
- Increase in service fees by 6% from ₱152.9 in the year ended December 31, 2013 to ₱161.4 million in the year ended December 31, 2014 due to the increase in manpower and agency fees for the operations of the malls and office building.
- Increase in rentals by 25% from ₱83.8 million in the year ended December 31, 2013 to ₱104.9 million in the year ended December 31, 2014 due to the increase in rental payments for the parcels of land in which the Worldwide Corporate Center, Starmall Taguig, and Starmall Talisay are located.
- Increase in salaries and employee benefits by 4% from ₱100.0 million in the year ended December 31, 2013 to ₱103.6 million in the year ended December 31, 2014 due to the increase in manpower for the operations and management of the existing malls and office building and the construction and development of new projects of the Group.
- Decrease in taxes and licenses by 1% from ₱54.9 million in the year ended December 31, 2013 to ₱54.1 million in the year ended December 31, 2014 due to the discounts on early payments of real property taxes of the various investment properties and business permits and other licenses for the operations of the malls and the corporate building.
- Increase in light and power by 12% from ₱35.3 million in the year ended December 31, 2013 to ₱39.4 million in the year ended December 31, 2014 due to the increase in consumption and rate of utilities.
- Increase in repairs and maintenance by 36% from ₱34.8 million in the year ended December 31, 2013 to ₱47.3 million in the year ended December 31, 2014 due to the repairs made to various equipment of the older malls and WCC building.
- Increase in advertising and promotion by 28% from ₱18.3 million in the year ended December 31, 2013 to ₱23.4 million in the year ended December 31, 2014 due to increase in marketing, advertising and promotions for the malls and corporate buildings.

- Increase in professional fees by 11% from ₱15.2 million in the year ended December 31, 2013 to ₱16.9 million in the year ended December 31, 2014 as a result of increase in audit and other professional fees paid in 2014.
- Increase in insurance expense by 3% from ₱14.7 million in the year ended December 31, 2013 to ₱15.1 million in the year ended December 31, 2014 due to the lower insurance premiums paid for the buildings, equipment and service vehicles used in operations in 2014.
- Increase in cost of real estate sales by 468% from ₱11.6 million in the year ended December 31, 2013 to ₱66.1 million in the year ended December 31, 2014 due to the sale of BEC of portion of its undeveloped land in 2014.
- Increase in other operating expenses by 42% from ₱41.1 million in the year ended December 31, 2013 to ₱58.5 million in the year ended December 31, 2014 due to the increase in various expenses such as representation, transportation, and supplies for the operations of the existing malls and corporate building and construction management of the new projects as well as commission for real estate sales in 2014.

Interest and Financing Charges

Interest and financing charges increased by 113% from ₱30.4 million in the year ended December 31, 2013 to ₱64.5 million in the year ended December 31, 2014. This was due additional loans incurred for the construction of the new projects of the group.

Loss from Disposal of an Investment in an Associate

In order to focus in the mall and office building development and operations, the Company sold 100% of its 1,009,960 shares of its investment in BEC, with a carrying amount of ₱535.3 million for a total consideration of ₱507.2 million in December 2014. The Group recognized a loss from this transaction amounting to ₱28.2 million.

Provision for Income Tax

Tax expense for the year ended December 31, 2014 is ₱170.1 million and decreased by 13% from ₱195.6 million for the year ended December 31, 2013. This is due to the primarily to the deferred tax income relating to reversal of temporary difference.

Other Comprehensive Income (Loss)

The Group reported a net gain for the year ended December 31, 2014 in the amount of ₱58.5 million while it incurred a net loss for the year ended December 31, 2013 in the amount of ₱79.5 million arising primarily from fair value gains and losses on available-for-sale financial assets in the respective periods.

Net Income

As a result of the foregoing, the Company's comprehensive income decreased from ₱1.5 billion in the year ended December 31, 2013 to ₱634.3 million in the year ended December 31, 2014.

For the year ended December 31, 2014, there were no seasonal aspects that had a material effect on the financial condition or results of operations of the Company. Neither were there any trends, events or uncertainties that have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations. The Company is not aware of events that will cause a material change in the relationship between the costs and revenues.

Retirement benefit obligation increased by 36% from ₱37.3 million as of December 31, 2013 to ₱50.8 million as of December 31, 2014 due to increased headcount and actuarial adjustments.

Deferred gross profit decreased by 100% from ₱27.7 million as of December 31, 2013 to nil as of December 31, 2014 due to the recognition of deferred gross profit on the real estate sales of MC.

Deferred tax liabilities posted a decrease of 25% from ₱98.2 million as of December 31, 2013 to ₱73.5 million as of December 31, 2014. The difference is due to the decrease in temporary tax differences of MAPI and MC.

Other non-current liabilities and refundable deposits increased by 10% from ₱500.1 million as of December 31, 2013 to ₱548.3 million as of December 31, 2014 due to the increase in security deposits from tenants of the existing malls and corporate building.

Material Changes to the Company's Statement of income for the year ended December 31, 2014 compared to the year ended December 31, 2013 (increase/decrease of 5% or more)

Rental income increased from ₱1.43 billion in the year ended December 31, 2013 to ₱1.62 billion in the year ended December 31, 2014. The 13% increase was due to the increase in occupancy of Starmall Las Piñas Annex, Starmall EDSA-Shaw, Starmall Alabang, Starmall San Jose del Monte and Worldwide Corporate Center and the opening of Starmall Prima Taguig and Starmall Talisay.

Parking fee revenue increased from ₱36.7 million in the year ended December 31, 2013 to ₱40.8 million in the year ended December 31, 2014. The 11% increase was due to the increase in parking rates and increase occupancy in the existing malls and corporate office building.

Real estate sales increased from ₱19.5 million in the year ended December 31, 2013 to ₱85.3 million in the year ended December 31, 2014. The 336% increase was due to the sale of BEC of portion of its undeveloped land in 2014.

Other operating income increased from ₱95.7 million in the year ended December 31, 2013 to ₱180.0 million in the year ended December 31, 2014. The 88% increase was due to increase in other operating income such as realized gross profit on real estate sales, gain on derecognition of liabilities and penalties and other fees charged to tenants.

Finance income increased from ₱21.5 million in the year ended December 31, 2013 to ₱35.6 million in the year ended December 31, 2014. The 65% increase resulted from interest income on the Group's available-for-sale financial assets and short-term placements.

Equity in net earnings of an associate decreased from ₱113.9 million in the year ended December 31, 2013 to nil in the year ended December 31, 2014. The 100% decrease was due to disposal of remaining 4.1% shareholdings in VLL in May 2013.

Gain on sale of investment in an associate decreased by 100% from ₱993.9 million in the year ended December 31, 2013 to nil in the same period in 2014 due to disposal of remaining 4.1% shareholdings in VLL in May 2013.

Increase in depreciation and amortization by 19% from ₱358.4 million in the year ended December 31, 2013 to ₱427.2 million in the year ended December 31, 2014 due to additional depreciation from new or refurbished mall equipment and the full year depreciation on the fair value adjustment on the properties owned by MC during the consolidation in 2012.

Increase in service fees by 6% from ₱152.9 in the year ended December 31, 2013 to ₱161.4 million in the year ended December 31, 2014 due to the increase in manpower and agency fees for the operations of the malls and office building.

Increase in rentals by 25% from ₱83.8 million in the year ended December 31, 2013 to ₱104.9 million in the year ended December 31, 2014 due to the increase in rental payments for the parcels of land in which the Worldwide Corporate Center, Starmall Taguig, and Starmall Talisay are located.

Increase in salaries and employee benefits by 4% from ₱100.0 million in the year ended December 31, 2013 to ₱103.6 million in the year ended December 31, 2014 due to the increase in manpower for the operations and management of the existing malls and office building and the construction and development of new projects of the Group.

Decrease in taxes and licenses by 1% from ₱54.9 million in the year ended December 31, 2013 to ₱54.1 million in the year ended December 31, 2014 due to the discounts on early payments of real property taxes of the various investment properties and business permits and other licenses for the operations of the malls and the corporate building.

Increase in light and power by 12% from ₱35.3 million in the year ended December 31, 2013 to ₱39.4 million in the year ended December 31, 2014 due to the increase in consumption and rate of utilities.

Increase in repairs and maintenance by 36% from ₱34.8 million in the year ended December 31, 2013 to ₱47.3 million in the year ended December 31, 2014 due to the repairs made to various equipment of the older malls and WCC building.

Increase in advertising and promotion by 28% from ₱18.3 million in the year ended December 31, 2013 to ₱23.4 million in the year ended December 31, 2014 due to increase in marketing, advertising and promotions for the malls and corporate buildings.

Increase in professional fees by 11% from ₱15.2 million in the year ended December 31, 2013 to ₱16.9 million in the year ended December 31, 2014 as a result of increase in audit and other professional fees paid in 2014.

Increase in cost of real estate sales by 468% from ₱11.6 million in the year ended December 31, 2013 to ₱66.1 million in the year ended December 31, 2014 due to the sale of BEC of portion of its undeveloped land in 2014.

Increase in other operating expenses by 42% from ₱41.1 million in the year ended December 31, 2013 to ₱58.5 million in the year ended December 31, 2014 due to the increase in various expenses such as representation, transportation, and supplies for the operations of the existing malls and corporate building and construction management of the new projects as well as commission for real estate sales in 2014.

Interest and financing charges increased by 113% from ₱30.4 million in the year ended December 31, 2013 to ₱64.5 million in the year ended December 31, 2014. This was due additional loans incurred for the construction of the new projects of the group.

Loss on disposal of a subsidiary increased by 100% from nil for the year ended December 31, 2013 to ₱28.2 million in the year ended December 31, 2014 with the disposal of the Company of 100% of its 1,009,960 shares of its investment in BEC in December 2014.

Tax expense for the year ended December 31, 2014 is ₱170.1 million and decreased by 13% from ₱195.6 million for the year ended December 31, 2013. This is due to the primarily to the deferred tax income relating to reversal of temporary difference.

Further, there are no material events and uncertainties known to management that would impact or change reported financial information and condition on the Company.

Commitments and Contingencies

The Group is contingently liable with respect to guarantees arising in the ordinary course of business, including surety bonds, letters of guarantee for performance and bonds for its entire real estate project.

The Philippines continues to experience economic difficulties relating to currency fluctuations, volatile stock markets and slowdown in growth. Management is of the opinion that losses, if any, from these events and conditions will not have material effects on the Group's financial statements.

Any known trends or any known demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the registrant's liquidity increasing or decreasing in any material way. The registrant shall indicate balance sheet conditions or an income or cash flow item that it believes may be indicators of its liquidity condition.

The Group sourced its capital requirements through a mix of bank borrowings, internally generated cash, and divestment of shares in BEC. The Group does not expect any material cash requirements beyond the normal course of the business.

Any events that will trigger direct or contingent financial obligation that is material to the Company, including any default or acceleration of an obligation.

None, except for those items disclosed in the 2015 Audited Financial Statements.

There are no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during the reporting period except those disclosed in the 2015 Audited Financial Statements.

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Starmalls, Inc. and its subsidiaries, which comprise the consolidated statement of financial position as at December 31, 2015, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

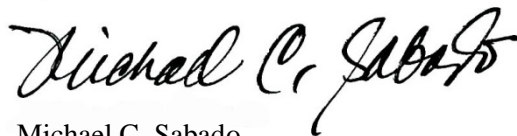

Opinion

In our opinion, the consolidated financial statement present fairly, in all material respects, the financial position of Starmalls, Inc. and its subsidiaries as at December 31, 2015, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards.

Other Matter

The consolidated financial statements of Starmalls, Inc. and subsidiaries for the years ended December 31, 2014 and 2013 (not presented herein) were audited by another auditor who expressed an unmodified opinion on those statements on April 10, 2015. As part of our audit of the 2015 consolidated financial statements, we also audited the adjustments described in Note 2 that were applied to the 2014 and 2013 consolidated financial statements, and the consolidated statement of financial position as at December 31, 2013 for the purpose of determining the balances for the consolidated statement of financial position as at January 1, 2014, which are presented herein as corresponding figures. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the 2014 and 2013 consolidated financial statements of the company other than with respect to the adjustments, and accordingly, we do not express an opinion or any other form of assurance on the 2014 and 2013 consolidated financial statements taken as a whole.

STARMALLS, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

Starmalls, Inc. (the Parent Company) was incorporated in the Republic of the Philippines and duly registered with the Securities and Exchange Commission (SEC) on October 16, 1969, originally to pursue mineral exploration. After obtaining SEC approval, the Parent Company later changed its primary business and is now presently engaged in holding investments in shares of stock and real estate business. The Parent Company is the holding company of the Starmalls Group (the Group). The Group has one wholly owned and one partially owned subsidiaries namely, Masterpiece Asia Properties, Inc. (MAPI) and Manuela Corporation (Manuela), respectively.

The Parent Company is 79.43% owned by Vista Land & Lifescapes, Inc. (VLLI or Vista Land), 8.82% owned by Fine Properties, Inc. (Fine or the Ultimate Parent) and the rest by the public. The Parent Company's shares of stock are listed at the Philippine Stock Exchange (PSE).

The Parent Company's registered office and principal place of business is located at 3rd Level Starmall Las Piñas, CV Starr Avenue, Pamplona, Las Piñas City.

2. Basis of Preparation

The accompanying consolidated financial statements of the Group have been prepared on a historical cost basis, except for the available-for-sale (AFS) financial assets which have been measured at fair value. The consolidated financial statements are presented in Philippine Peso (₱) which is the functional and presentation currency of the Parent Company, and all amounts are rounded to the nearest Philippine Peso unless otherwise indicated.

Statement of Compliance

The consolidated financial statements of the Group have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries (the Group) as at December 31, 2015 and 2014. The financial statements of the subsidiaries are prepared for the same reporting year as the Group, using consistent accounting policies.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date when such control ceases. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company, using consistent accounting policies. All intra-group balances, transactions, unrealized gains and losses resulting from intra-group transactions and dividends are eliminated in full.

Non-controlling interests represent the portion of profit or loss and net assets in subsidiaries not wholly-owned and are presented separately in the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of financial position, separately from the Parent Company's equity.

Losses within a subsidiary are attributed to the non-controlling interests even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any non-controlling interest
- Derecognizes the cumulative translation differences recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate.

The policy is accordance with PFRS 10, Consolidated Financial Statements.

The Group's consolidated financial statements comprise the financial statements of the Parent Company and the following subsidiaries:

Subsidiaries	Functional Currency	Percentage of Ownership
MAPI	Philippine Peso	100.00%
Manuela	Philippine Peso	98.36%

In 2012, the Parent Company acquired 98.36% interest over Manuela, an entity under common ownership and control. The business combination was accounted using the acquisition method. Under the acquisition method, assets and liabilities acquired have been recognized and measured at fair values. This business combination resulted to negative goodwill amounting ₱9,317.89 million and reported as income in the 2012 consolidated statement of comprehensive income.

On December 29, 2014, the Parent Company disposed its 100% ownership interest in Brittany Estate Corporation (BEC). The disposal of the subsidiary resulted to the latter's deconsolidation from the Group as of December 31, 2014. BEC was engaged in the real estate business.

On November 10, 2015, Vista Land signed an agreement with the existing shareholders of the Group to acquire approximately 88.25% or 7,436.22 million shares of the outstanding capital stock of the Parent Company for a total consideration of ₱33,537.36 million.

In December 2015, Vista Land acquired 6,692.93 million shares of Starmalls, Inc. from the Fine for a total consideration of ₱30,185.11 million (the “First Closing Date”). As MAPI and Manuela are subsidiaries of Starmalls, Inc., these were included in the acquisition of Vista Land. The second closing date which is after the tender offer period in February 10, 2016, Vista Land acquired the remaining 743.29 million shares of the Starmalls, Inc. from Fine in the amount of ₱3,352.25 million.

Upon execution of the agreement, Vista Land paid ₱2,681.25 million to Fine (the “Initial Sale Payment”) which was applied against the consideration in the First Closing Date.

As a condition to the acquisition of the Group, Fine agreed to invest the 97.5% of the total consideration received from the disposal of Starmalls, Inc. or ₱32,698.93 million to Vista Land representing 4,573.28 million shares of Vista Land at ₱7.15 per share. The shares will be issued out of Vista Land’s increase in its authorized capital stock which was applied and approved by the SEC on November 11, 2015.

As at December 31, 2015, Vista Land completed its acquisition of Starmalls, Inc. representing 79.43% or 6.69 billion shares. Further, Vista Land has a tender offer to acquire 989.73 million more shares from minority shareholders which started on January 4, 2016 and expired on February 15, 2016. After the allowed period for the tender offer, 6.97 million shares or 0.08% of the total shares of Starmalls, Inc. tendered.

After the aforementioned transactions, Starmalls, MAPI and Manuela became subsidiaries of Vista Land as at December 31, 2015.

As at February 24, 2016, Vista Land completed its acquisition of the shares of Starmalls, Inc. and its subsidiaries MAPI and representing 88.34% or 7.44 billion shares.

Both Vista Land and Starmalls Group are entities under common control of Fine Group. Accordingly, Vista Land accounted for the acquisition of Starmalls Group under the pooling-of-interest method of accounting.

As a result of the acquisition, Starmalls accounting policies have been realigned to Vista Group for the uniform accounting treatment of business combination involving entities under common control. Accordingly, the fair values previously recognized on Property and equipment and Investment property of the Starmalls Group, which arose from the 2012 acquisition of Manuela that was accounted at acquisition method, have been adjusted under the pooling-of-interest method and brought back to cost.

As such, the comparative consolidated financial statements as of and for the years ended December 31, 2014 and 2013 have been restated to include the accounts of Starmalls, MAPI and Manuela, as if the entities had always been combined. The January 1, 2014 consolidated statement of financial position has been presented for the opening balances at a combined basis using the same pooling-of-interest method.

The related effects of the change in the assets, equity and the related expense accounts as at December 31, 2014 and January 1, 2014 follow:

3. Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of amended PFRS and Philippine Accounting Standards (PAS) which became effective beginning January 1, 2015. Except as otherwise indicated, the adoption of the new and amended PFRS, PAS, Philippine Interpretations did not have any effect on the consolidated financial statements of the Group.

- PAS 19, *Employee Benefits - Defined Benefit Plans: Employee Contributions* (Amendments) PAS 19 requires an entity to consider contributions from employees or third parties when accounting for defined benefit plans. Where the contributions are linked to service, they should be attributed to periods of service as a negative benefit. These amendments clarify

that, if the amount of the contributions is independent of the number of years of service, an entity is permitted to recognize such contributions as a reduction in the service cost in the period in which the service is rendered, instead of allocating the contributions to the periods of service. The amendments had no impact on the Group's financial statements.

Annual Improvements to PFRSs (2010-2012 cycle)

The Annual Improvements to PFRSs (2010-2012 cycle) became effective for annual periods beginning on or after January 1, 2015 and did not have any effect on the consolidated financial statements of the Group.

- *PFRS 2, Share-based Payment - Definition of Vesting Condition*

This improvement is applied prospectively and clarifies various issues relating to the definitions of performance and service conditions which are vesting conditions, including:

- A performance condition must contain a service condition;
- A performance target must be met while the counterparty is rendering service;
- A performance target may relate to the operations or activities of an entity, or to those of another entity in the same group;
- A performance condition may be a market or non-market condition; and
- If the counterparty, regardless of the reason, ceases to provide service during the vesting period, the service condition is not satisfied.

This amendment does not apply to the Group as it has no share-based payments.

- *PFRS 3, Business Combinations - Accounting for Contingent Consideration in a Business Combination*

The amendment is applied prospectively for business combinations for which the acquisition date is on or after July 1, 2014. It clarifies that a contingent consideration that is not classified as equity is subsequently measured at fair value through profit or loss whether or not it falls within the scope of PAS 39, *Financial Instruments: Recognition and Measurement* (or PFRS 9, *Financial Instruments*, if early adopted). The Group shall consider this amendment for future business combinations.

- *PFRS 8, Operating Segments - Aggregation of Operating Segments and Reconciliation of the Total of the Reportable Segments' Assets to the Entity's Assets*

The amendments are applied retrospectively and clarify that:

- An entity must disclose the judgments made by management in applying the aggregation criteria in the standard, including a brief description of operating segments that have been aggregated and the economic characteristics (e.g., sales and gross margins) used to assess whether the segments are 'similar'.
- The reconciliation of segment assets to total assets is only required to be disclosed if the reconciliation is reported to the chief operating decision maker, similar to the required disclosure for segment liabilities.

The amendments affect disclosures only and have no impact on the Group's financial position or performance.

- *PAS 16, Property, Plant and Equipment - Revaluation Method - Proportionate Restatement of Accumulated Depreciation*

The amendment is applied retrospectively and clarifies in PAS 16 and PAS 38 that the asset may be revalued by reference to the observable data on either the gross or the net carrying

amount. In addition, the accumulated depreciation or amortization is the difference between the gross and carrying amounts of the asset. The amendment will have no impact on the Group's financial position or performance.

- *PAS 24, Related Party Disclosures - Key Management Personnel*
The amendment is applied retrospectively and clarifies that a management entity, which is an entity that provides key management personnel services, is a related party subject to the related party disclosures. In addition, an entity that uses a management entity is required to disclose the expenses incurred for management services. The amendments affect disclosures only and had no impact on the Group's financial position or performance.

Annual Improvements to PFRSs (2011-2013 cycle)

The Annual Improvements to PFRSs (2010-2012 cycle) became effective for annual periods beginning on or after January 1, 2015 and did not have any effect on the consolidated financial statements of the Group.

- *PFRS 3, Business Combinations - Scope Exceptions for Joint Arrangements*
The amendment is applied prospectively and clarifies the following regarding the scope exceptions within PFRS 3:
 - Joint arrangements, not just joint ventures, are outside the scope of PFRS 3.
 - This scope exception applies only to the accounting in the financial statements of the joint arrangement itself.

The amendment had no impact on the Group's financial position or performance.

- *PFRS 13, Fair Value Measurement - Portfolio Exception*
The amendment is applied prospectively and clarifies that the portfolio exception in PFRS 13 can be applied not only to financial assets and financial liabilities, but also to other contracts within the scope of PAS 39. The amendment had no significant impact on the Group's financial position or performance.
- *PAS 40, Investment Property*
The amendment is applied prospectively and clarifies that PFRS 3, and not the description of ancillary services in PAS 40, is used to determine if the transaction is the purchase of an asset or business combination. The description of ancillary services in PAS 40 only differentiates between investment property and owner-occupied property (i.e., property, plant and equipment). The amendment had no significant impact on the Group's financial position or performance.

There are new PAS and PFRS, amendments, annual improvements and interpretations to existing standards that are effective for periods subsequent to 2015 and these will be adopted on their effectivity dates in accordance with the transition provisions. Except as otherwise stated, these amendments and improvements to PFRS and new standards are not expected to have any significant impact on the Group's financial statements.

Standards Issued but not yet Effective

The Group has not applied the following PFRS and Philippine Interpretations which are not yet effective as of December 31, 2015. This list consists of standards and interpretations issued, which the Group reasonably expects to be applicable at a future date. The Group intends to adopt those standards when they become effective. The Group does not expect the adoption of these standards to have a significant impact in the consolidated financial statements, unless otherwise stated.

- *Philippine Interpretation IFRIC 15, Agreement for Construction of Real Estate*
This Philippine Interpretation, which may be early applied, covers accounting for revenue and associated expenses by entities that undertake the construction of real estate directly or through subcontractors. This Philippine Interpretation requires that revenue on construction of real estate be recognized only upon completion, except when such contract qualifies as construction contract to be accounted for under PAS 11, *Construction Contracts*, or involves rendering of services in which case revenue is recognized based on stage of completion. Contracts involving provision of services with the construction materials and where the risks and reward of ownership are transferred to the buyer on a continuous basis will also be accounted for based on stage of completion. The SEC and the FRSC have deferred the effectivity of this interpretation until the final Revenue standard is issued by the International Accounting Standards Board (IASB) and an evaluation of the requirements of the final Revenue standard against the practices of the Philippine real estate industry is completed.

The adoption of this interpretation may significantly affect the determination of the Group's revenue from real estate sales and the corresponding costs, and the related trade receivables, deferred tax liabilities and retained earnings accounts.

Effective January 1, 2016

- *PAS 16, Property, Plant and Equipment, and PAS 38, Intangible Assets - Clarification of Acceptable Methods of Depreciation and Amortization (Amendments)*
The amendments clarify the principle in PAS 16 and PAS 38 that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortize intangible assets. The amendments are effective prospectively for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments will have no significant impact on the Group given that the Group has not used a revenue-based method to depreciate its non-current assets.
- *PAS 16, Property, Plant and Equipment, and PAS 41, Agriculture - Bearer Plants (Amendments)*
The amendments change the accounting requirements for biological assets that meet the definition of bearer plants. Under the amendments, biological assets that meet the definition of bearer plants will no longer be within the scope of PAS 41. Instead, PAS 16 will apply. After initial recognition, bearer plants will be measured under PAS 16 at accumulated cost (before maturity) and using either the cost model or revaluation model (after maturity). The amendments also require that produce that grows on bearer plants will remain in the scope of PAS 41 measured at fair value less costs to sell. For government grants related to bearer plants, PAS 20, *Accounting for Government Grants and Disclosure of Government Assistance*, will apply. The amendments are retrospectively effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments will have no significant impact on the Group's financial position or performance.

- PAS 27, *Separate Financial Statements - Equity Method in Separate Financial Statements* (Amendments)

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying PFRS and electing to change to the equity method in its separate financial statements will have to apply that change retrospectively. For first-time adopters of PFRS electing to use the equity method in its separate financial statements, they will be required to apply this method from the date of transition to PFRS. These amendments are not expected to have any impact to the Group.

- PFRS 10, *Consolidated Financial Statements* and PAS 28, *Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

These amendments address an acknowledged inconsistency between the requirements in PFRS 10 and those in PAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary. These amendments are effective from annual periods beginning on or after 1 January 2016. These amendments will have no significant impact on the Group's financial position or performance.

- PFRS 11, *Joint Arrangements - Accounting for Acquisitions of Interests in Joint Operations* (Amendments)

The amendments to PFRS 11 require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business must apply the relevant PFRS 3 principles for business combinations accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation while joint control is retained. In addition, a scope exclusion has been added to PFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party.

The amendments apply to both the acquisition of the initial interest in a joint operation and the acquisition of any additional interests in the same joint operation and are prospectively effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments are not expected to have any impact to the Group.

- PAS 1, *Presentation of Financial Statements - Disclosure Initiative* (Amendments)

The amendments are intended to assist entities in applying judgment when meeting the presentation and disclosure requirements in PFRS. They clarify the following:

- That entities shall not reduce the understandability of their financial statements by either obscuring material information with immaterial information; or aggregating material items that have different natures or functions
- That specific line items in the statement of income and OCI and the statement of financial position may be disaggregated
- That entities have flexibility as to the order in which they present the notes to financial statements

- That the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss.

Early application is permitted and entities do not need to disclose that fact as the amendments are considered to be clarifications that do not affect an entity's accounting policies or accounting estimates. The Group is currently assessing the impact of these amendments on its consolidated financial statements.

- *PFRS 14, Regulatory Deferral Accounts*
PFRS 14 is an optional standard that allows an entity, whose activities are subject to rate-regulation, to continue applying most of its existing accounting policies for regulatory deferral account balances upon its first-time adoption of PFRS. Entities that adopt PFRS 14 must present the regulatory deferral accounts as separate line items on the statement of consolidated financial position and present movements in these account balances as separate line items in the statement of profit or loss and other comprehensive income. The standard requires disclosures on the nature of, and risks associated with, the entity's rate-regulation and the effects of that rate-regulation on its financial statements. PFRS 14 is effective for annual periods beginning on or after January 1, 2016. Since the Group is an existing PFRS preparer, this standard would not apply.

Annual Improvements to PFRS (2012-2014 cycle)

The Annual Improvements to PFRSs (2012-2014 cycle) are effective for annual periods beginning on or after January 1, 2016 and are not expected to have a material impact on the Group.

- *PFRS 5, Non-current Assets Held for Sale and Discontinued Operations - Changes in Methods of Disposal*
The amendment is applied prospectively and clarifies that changing from a disposal through sale to a disposal through distribution to owners and vice-versa should not be considered to be a new plan of disposal, rather it is a continuation of the original plan. There is, therefore, no interruption of the application of the requirements in PFRS 5. The amendment also clarifies that changing the disposal method does not change the date of classification. The amendment will have no significant impact on the Group's financial position or performance.
- *PFRS 7, Financial Instruments: Disclosures - Servicing Contracts*
PFRS 7 requires an entity to provide disclosures for any continuing involvement in a transferred asset that is derecognized in its entirety. The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and arrangement against the guidance in PFRS 7 in order to assess whether the disclosures are required. The amendment is to be applied such that the assessment of which servicing contracts constitute continuing involvement will need to be done retrospectively. However, comparative disclosures are not required to be provided for any period beginning before the annual period in which the entity first applies the amendments. The amendment will have no significant impact on the Group's financial position or performance.
- *PFRS 7 - Applicability of the Amendments to PFRS 7 to Condensed Interim Financial Statements*
This amendment is applied retrospectively and clarifies that the disclosures on offsetting of financial assets and financial liabilities are not required in the condensed interim financial report unless they provide a significant update to the information reported in the most recent

annual report. The amendment will have no significant impact on the Group's financial position or performance.

- *PAS 19, Employee Benefits - regional market issue regarding discount rate*
This amendment is applied prospectively and clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used. The amendment will have no significant impact on the Group's financial position or performance.
- *PAS 34, Interim Financial Reporting - disclosure of information 'elsewhere in the interim financial report'*
The amendment is applied retrospectively and clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the greater interim financial report (e.g., in the management commentary or risk report). The amendment will have no significant impact on the Group's financial position or performance.

Effective January 1, 2018

- *PFRS 9, Financial Instruments*
In July 2014, the IASB issued the final version of IFRS 9, *Financial Instruments*. The new standard (renamed as PFRS 9) reflects all phases of the financial instruments project and replaces PAS 39, *Financial Instruments: Recognition and Measurement*, and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. PFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions. Early application of previous versions of PFRS 9 (2009, 2010 and 2013) is permitted if the date of initial application is before February 1, 2015.

The adoption of PFRS 9 will have an effect on the classification and measurement of the Group's financial assets and impairment methodology for financial assets, but will have no impact on the classification and measurement of the Group's financial liabilities. The requirements on hedge accounting will not have any impact on the Group's financial statements.

The following new standard issued by the IASB has not yet been adopted by the FRSC

- *IFRS 15, Revenue from Contracts with Customers*
IFRS 15 was issued in May 2014 and establishes a new five-step model that will apply to revenue arising from contracts with customers. Under IFRS 15 revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in IFRS 15 provide a more structured approach to measuring and recognizing revenue. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2017 with early adoption permitted. The Group is currently assessing the impact of IFRS 15 and plans to adopt the new standard on the required effective date once adopted locally.

Effective January 1, 2019

- **IFRS 16, *Leases***

On January 13, 2016, the International Accounting Standards Board (IASB) issued its new standard, IFRS 16, *Leases*, which replaces International Accounting Standards (IAS) 17, the current leases standard, and the related Interpretations.

Under the new standard, lessees will no longer classify their leases as either operating or finance leases in accordance with IAS 17. Rather, lessees will apply the single-asset model. Under this model, lessees will recognize the assets and related liabilities for most leases in their balance sheets, and subsequently, will depreciate the lease assets and recognize interest on the lease liabilities in their profit or loss. Leases with a term of 12 months or less or for which the underlying asset is of low value are exempted from these requirements.

The accounting by lessors is substantially unchanged as the new standard carries forward the principles of lessor accounting under IAS 17. Lessors, however, will be required to disclose more information in their financial statements, particularly on the risk exposure to residual value.

The new standard is effective for annual periods beginning on or after January 1, 2019. Entities may early adopt IFRS 16 but only if they have also adopted IFRS 15, *Revenue from Contracts with Customers*. When adopting IFRS 16, an entity is permitted to use either a full retrospective or a modified retrospective approach, with options to use certain transition reliefs. The Group plans to adopt the new standard on the required effective date once adopted locally but this will not have impact on the Group.

4. Summary of Significant Accounting Policies

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three (3) months or less from dates of placement and that are subject to an insignificant risk of changes in value.

Financial Instruments

Date of recognition

The Group recognizes a financial asset or a financial liability in the consolidated statement of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the trade date, which is the date when the Group commits to purchase or sell the asset.

Initial recognition of financial instruments

All financial assets and financial liabilities are initially recognized at fair value. Except for financial assets and liabilities at fair value through profit or loss (FVPL), the initial measurement of financial assets and liabilities include transaction costs. The Group classifies its financial assets in the following categories: financial assets at FVPL, held-to-maturity (HTM) investments, AFS financial assets, and loans and receivables.

The Group classifies its financial liabilities as financial liabilities at FVPL or other financial liabilities.

The classification depends on the purpose for which the investments were acquired and whether these are quoted in an active market. The financial assets of the Group are of the nature of loans and receivable, AFS financial assets and HTM financial assets, while its financial liabilities are of the nature of other financial liabilities. Management determines the classification at initial recognition and re-evaluates such designation, where allowed and appropriate, at every reporting date.

Financial instruments are classified as liability or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument or a component that is a financial liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity, net of any related income tax benefits.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 - valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each financial reporting date.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

“Day 1” difference

Where the transaction price in a non-active market is different from the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a “Day 1” difference) in profit or loss under “Interest income” and “Interest and other financing charges” accounts unless it qualifies for recognition as some other type of asset or liability. In cases where fair value is determined using data which is not observable, the difference between the transaction price and model value is only recognized in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the “Day 1” difference amount.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are not entered into with the intention of immediate or short-term resale and are not classified as financial assets held-for-trading, designated as AFS or as financial assets at FVPL. Receivables are recognized initially at fair value, which normally pertains to the billable amount. After initial measurement, loans and receivables are subsequently measured at cost or at amortized cost using the effective interest method, less allowance for impairment losses. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate (EIR). The amortization, if any, is included in profit or loss. The losses arising from impairment of receivables are recognized in profit or loss. These financial assets are included in current assets if maturity is within twelve (12) months from the financial reporting date. Otherwise, these are classified as noncurrent assets.

This accounting policy applies primarily to the Group’s cash and cash equivalents, trade receivables, installment contract receivables (classified under current and non-current assets) and refundable deposits (classified under current and non-current assets).

AFS financial assets

AFS financial assets are non-derivative financial assets that are designated as such or do not qualify to be classified or designated as financial assets at FVPL, HTM investments or loans and receivables. These are purchased and held indefinitely, and may be sold in response to liquidity requirements or changes in market conditions.

After initial measurement, AFS financial assets are measured at fair value. The unrealized gains and losses arising from the fair valuation of AFS financial assets are excluded from reported earnings and are reported in OCI.

When the investment is disposed of, the cumulative gain or loss previously recognized in OCI is recognized as gain or loss on disposal in profit or loss. Where the Group holds more than one investment in the same security these are deemed to be disposed of on a first-in first-out basis. Interest earned on holding AFS financial assets are reported as interest income using the EIR. Dividends earned on holding AFS financial assets are recognized in profit or loss as part of miscellaneous income when the right to receive payment has been established. The losses arising from impairment of such investments are recognized as provisions for impairment losses in profit or loss.

When the fair value of AFS equity financial assets cannot be measured reliably because of lack of reliable estimates of future cash flows and discount rates necessary to calculate the fair value of unquoted equity instruments, these investments are carried at cost, less any impairment losses.

As of December 31, 2015 and 2014, AFS financial assets comprise of unquoted and quoted equity securities. The Group's AFS financial assets in quoted equity securities pertain to investments in shares of publicly listed companies while unquoted equity securities pertain to investments in shares of non-listed companies.

Liability for land acquisition and other financial liabilities

Liability for land acquisition and other financial liabilities are initially recognized at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, liability for land acquisition and other financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the EIR. Gains and losses are recognized in profit or loss when the liabilities are derecognized (redemption is a form of derecognition), as well as through the amortization process. Any effects of restatement of foreign currency-denominated liabilities are recognized in profit or loss.

The financial liabilities measured at cost are accounts and other payables and payable to related parties and other liabilities. The financial liabilities measured at amortized cost are interest-bearing loans and borrowings and liability for land acquisition.

Derecognition of Financial Assets and Financial Liabilities

Financial asset

A financial asset (or, where applicable, a part of a group of financial assets) is derecognized where: (a) the rights to receive cash flows from the assets have expired; (b) the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third-party under a "pass-through" arrangement; or (c) the Group has transferred its right to receive cash flows from the asset and either: (i) has transferred substantially all the risks and rewards of the asset, or (ii) has neither transferred nor retained the risks and rewards of the asset but has transferred control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial liability

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

Impairment of Financial Assets

The Group assesses at each financial reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, and where observable data indicate that there is measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Loans and Receivables

For loans and receivables carried at amortized cost, the Group first assesses whether an objective evidence of impairment exists individually for financial assets that are individually significant. If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of the estimated future cash flows discounted at the assets original EIR (excluding future credit losses that have not been incurred). If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, the asset, together with the other assets that are not individually significant and were thus not individually assessed for impairment, is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment.

Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of credit risk characteristics such as selling price of the lots and residential houses, past-due status and term.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Group to reduce any differences between loss estimates and actual loss experience.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of loss is charged to profit or loss. Financial assets carried at amortized costs, together with the associated allowance accounts, are written off when there is no realistic prospect of future recovery and all collateral has been realized. If, in a subsequent year, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

AFS financial assets carried at fair value

In case of equity investments classified as AFS financial assets, impairment indicators would include a significant or prolonged decline in the fair value of the investments below their corresponding cost. Where there is evidence of impairment, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in OCI is removed from OCI and recognized in profit or loss. Reversals of impairment losses in respect of equity instruments classified as AFS financial assets are not recognized in the profit or loss. Increases in fair value after impairment are recognized directly in OCI.

AFS financial assets carried at cost

If there is an objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, the amount of the loss is measured as the difference between the carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Company assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Company and all of the counterparties.

Business Combination and Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognized in accordance with PAS 39 either in profit or loss or as a change to OCI. If the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in profit or loss as bargain purchase gain.

Following initial recognition, goodwill is measured at cost less any accumulated impairment loss. Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. For purposes of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each

of the Group's CGUs, or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Each unit or group of units to which the goodwill is allocated should:

- represent the lowest level within the Group at which the goodwill is monitored for internal management purposes; and
- not be larger than an operating segment determined in accordance with PFRS 8, *Operating Segments*.

Impairment is determined by assessing the recoverable amount of the CGU (or group of CGUs), to which the goodwill relates. Where the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount, an impairment loss is recognized. Where goodwill forms part of a CGU (or group of CGUs) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in these circumstances is measured based on the relative values of the operation disposed of and the portion of the CGU retained. If the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities exceeds the cost of the business combination, the acquirer shall recognize immediately in the consolidated statement of income any excess remaining after reassessment.

PFRS 3 provides that if the initial accounting for a business combination can be determined only provisionally by the end of the period in which the combination is effected because either the fair values to be assigned to the acquiree's identifiable assets, liabilities or contingent liabilities or the cost of the combination can be determined only provisionally, the acquirer shall account for the combination using those provisional values. The acquirer shall recognize any adjustments to those provisional values as a result of completing the initial accounting within twelve months of the acquisition date as follows: (i) the carrying amount of the identifiable asset, liability or contingent liability that is recognized or adjusted as a result of completing the initial accounting shall be calculated as if its fair value at the acquisition date had been recognized from that date; (ii) goodwill or any gain recognized shall be adjusted by an amount equal to the adjustment to the fair value at the acquisition date of the identifiable asset, liability or contingent liability being recognized or adjusted; and (iii) comparative information presented for the periods before the initial accounting for the combination is complete shall be presented as if the initial accounting has been completed from the acquisition date.

For business combinations under common control an entity can choose to account for the combinations using the acquisition method or pooling of interest method. However, where an entity selects the acquisition method of accounting, the transaction must have substance from the perspective of the reporting entity. When evaluating whether the transaction has substance, the following factors are considered:

- (a) the purpose of the transaction;
- (b) the involvement of outside parties in the transaction, such as non-controlling interests or other third parties;
- (c) whether or not the transaction is conducted at fair values;
- (d) the existing activities of the entities involved in the transactions;
- (e) whether or not it is bringing entities together into a "reporting entity" that didn't exist before; and

- (f) where a Newco is established, whether it is undertaken as an integral part of an IPO or spin-off or other change in control and significant change in ownership.

Under acquisition method, the Group can either measure the consideration transferred at the acquisition-date fair value of the consideration actually given or elect to impute an additional equity contribution to recognize total consideration equivalent to the fair value of the business received. Whichever method is adopted should be applied consistently, and the entity should disclose its chosen accounting policy.

Real Estate Properties for Sale

Real estate properties for sale consist of raw land, subdivision land and residential house and lots for sale and development. These are properties acquired or being constructed for sale in the ordinary course of business rather than to be held for rental or capital appreciation. These are held as inventory and are measured at the lower of cost and net realizable value (NRV).

Cost includes:

- Acquisition cost of raw land;
- Amounts paid to contractors for construction and development of raw land and residential units; and
- Capitalized borrowing costs, planning and design costs, cost of site preparation, professional fees for legal services, property transfer taxes, construction overheads and other related costs.

Nonrefundable commissions paid to sales or marketing agents on the sale of real estate units are expensed when paid.

NRV is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date, less costs to complete and the estimated costs of sale. The carrying amount of inventories is reduced through the use of allowance account and the amount of loss is charged to profit or loss.

The cost of inventory recognized in profit or loss on disposal is determined with reference to the specific costs incurred on the property sold and an allocation of any non-specific costs. The total costs are allocated pro-rata based on the relative size of the property sold.

Prepaid Expenses

Prepaid expenses are carried at cost less the amortized portion. These typically comprise prepayments for marketing fees, taxes and licenses, rentals and insurance.

Creditable Withholding Tax

This pertains to the tax withheld at source by the Group's customer and is creditable against the income tax liability of the Group.

Value-Added Tax (VAT)

The input value-added tax pertains to the 12% indirect tax paid by the Group in the course of the Group's trade or business on local purchase of goods or services.

Output VAT pertains to the 12% tax due on the local sale of goods or services by the Group.

If at the end of any taxable month, the output VAT exceeds the input VAT, the outstanding balance is included under "Accounts and other payables" account. If the input VAT exceeds the

output VAT, the excess shall be carried over to the succeeding months and included under “Other current assets” account.

Investment Properties

Investment properties comprise of land, building, building improvements and property under construction or re-development that are held to earn rentals or for capital appreciation or both. Building and building improvements are carried at cost less accumulated depreciation and amortization and any impairment in value. Land is carried at cost less any impairment in value.

Expenditures incurred after the investment property has been put in operation, such as repairs and maintenance costs, are normally charged against income in the period in which the costs are incurred.

Construction-in-progress (CIP) is stated at cost. This includes cost of construction and other direct costs. CIP is not depreciated until such time as the relevant assets are completed and put into operational use. CIP are carried at cost and transferred to the related investment property account when the construction and related activities to prepare the property for its intended use are complete, and the property is ready for occupation.

Depreciation and amortization are computed using the straight-line method over the estimated useful lives (EUL) of the assets, regardless of utilization. The EUL and the depreciation and amortization method are reviewed periodically to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of investment properties.

The EUL of buildings and building improvements is 10 to 40 years.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognized in profit or loss in the year of retirement or disposal.

Transfers are made to investment property when there is a change in use, evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment property when, and only when, there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. Transfers between investment property, owner-occupied property and inventories do not change the carrying amount of the property transferred and they do not change the cost of the property for measurement or for disclosure purposes.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation and amortization, and any impairment in value.

The initial cost of property and equipment consists of its purchase price, including import duties, taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property and equipment have been put into operation, such as repairs and maintenance are normally charged against operations in the period in which the costs are incurred.

Depreciation and amortization of property and equipment commences once the property and equipment are available for use and computed using the straight-line basis over the EUL of property and equipment as follows:

	Years
Building and building improvements	10 to 40
Office furniture, fixtures and equipment	3 to 5
Transportation equipment	3
Construction equipment	5

Building improvements are amortized on a straight-line basis over the term of the lease or the EUL of the asset, whichever is shorter.

The useful lives and depreciation and amortization method are reviewed annually to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

When property and equipment are retired or otherwise disposed of, the cost of the related accumulated depreciation and amortization and accumulated provision for impairment losses, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations.

Fully depreciated and amortized property and equipment are retained in the accounts until they are no longer in use. No further depreciation and amortization is charged against current operations.

Impairment of Nonfinancial Assets

This accounting policy relates to property and equipment and investment properties.

The Group assesses as at reporting date whether there is an indication that nonfinancial assets may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is calculated as the higher of the asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. Impairment losses of continuing operations are recognized in profit or loss in those expense categories consistent with the function of the impaired asset.

An assessment is made at each financial reporting date as to whether there is an indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as revaluation increase in OCI. After such reversal, the depreciation and amortization charge is adjusted in

future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Equity

When the shares are sold at premium, the difference between the proceeds at the par value is credited to "Additional paid-in capital" account. Direct costs incurred related to equity issuance are chargeable to "Additional paid-in capital" account. If additional paid-in capital is not sufficient, the excess is charged against retained earnings. When the Group issues more than one class of stock, a separate account is maintained for each class of stock and the number of shares issued.

Retained earnings represent accumulated earnings of the Group less dividends declared. It includes the accumulated equity in undistributed earnings of consolidated subsidiaries which are not available for dividends until declared by the subsidiaries (Note 18).

Own equity instruments which are reacquired (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in additional paid-in capital. Voting rights related to treasury shares are nullified for the Group and no dividends are allocated to them respectively. When the shares are retired, the capital stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to additional paid-in capital to the extent of the specific or average additional paid-in capital when the shares were issued and to retained earnings for the remaining balance.

The retained earnings account is restricted to payments of dividends to the extent of the cost of treasury shares (Note 18).

Revenue and Cost Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

Rental income

Rental income from investment property is accounted for on a straight-line basis over the lease term.

Common usage and service area charges

Revenue is recognized when the performance of contractually agreed task has been substantially rendered

Rendering of services

Revenue is recognized when the performance of contractually agreed tasks have been substantially rendered. Revenue from rendering of services include common usage and service area charges, income from parking fees and others.

Real estate revenue

For real estate sales, the Group assesses whether it is probable that the economic benefits will flow to the Group when the sales prices are collectible. Collectability of the sales price is demonstrated by the buyer's commitment to pay, which in turn is supported by substantial initial and continuing investments that give the buyer a stake in the property sufficient that the risk of loss through default motivates the buyer to honor its obligation to the seller. Collectability is also assessed by considering factors such as the credit standing of the buyer, age and location of the property.

Any excess of collections over the recognized receivables are included in the “Customers’ advances and deposits” account in the liabilities section of the consolidated statement of financial position.

Revenue from sales of completed real estate projects is accounted for using the full accrual method.

When a sale of real estate does not meet the requirements for revenue recognition, the sale is accounted for under the deposit method. Under this method, revenue is not recognized, and the receivable from the buyer is not recorded. The real estate inventories continue to be reported on the consolidated statement of financial position as “Real estate inventories” and the related liability as deposits under “Customers’ advances and deposits”.

Cost of real estate sales is recognized consistent with the revenue recognition method applied. Cost of subdivision land and condominium units sold before the completion of the development is determined on the basis of the acquisition cost of the land plus its full development costs, which include estimated costs for future development works, as determined by the Group’s in-house technical staff.

Income from forfeited reservations and collections

Income from forfeited reservation and collections is recognized when the deposits from potential buyers are deemed nonrefundable due to prescription of the period for entering into a contracted sale. Such income is also recognized, subject to the provisions of Republic Act 6552, *Realty Installment Buyer Act*, upon prescription of the period for the payment of required amortizations from defaulting buyers.

Interest income

Interest is recognized using the effective interest method, i.e., the rate, that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

Unearned discount is recognized as income over the terms of the financial assets at amortized cost (i.e., loans and receivables or HTM investments) using the effective interest method and is shown as deduction for the financial assets.

Dividend and miscellaneous income

Dividend and miscellaneous income are recognized when the Group’s right to receive payment is established.

Pension Cost

Defined benefit plan

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets, adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit (PUC) method.

Defined benefit costs comprise the following:

- (a) service cost;
- (b) net interest on the net defined benefit liability or asset; and
- (c) remeasurements of net defined benefit liability or asset.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on high quality corporate bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Income Taxes

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Deferred tax

Deferred tax is provided using the liability method on temporary differences, with certain exceptions, at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, with certain exceptions. Deferred tax liabilities shall be recognized for all taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures when the timing of reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in foreseeable future. Otherwise, no deferred tax liability is set up.

Deferred tax assets are recognized for all deductible temporary differences, carryforward benefit of unused tax credits from excess of minimum corporate income tax (MCIT) over the regular corporate income tax and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable income will be available against which the deductible temporary differences and carryforward benefits of unused tax credits from MCIT and NOLCO can be utilized.

Deferred tax assets shall be recognized for deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each financial reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each financial reporting date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that is expected to apply in the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss in the consolidated statement of comprehensive income. Deferred tax items recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities, and the deferred taxes relate to the same taxable entity and the same taxation authority.

Commissions

The Group recognizes commissions when services are rendered by the broker. The commission expense is accrued upon receipt of down payment from the buyer comprising a substantial portion of the contract price and the capacity to pay and credit worthiness of buyers have been reasonably established for sales under the deferred cash payment arrangement.

Borrowing Costs

Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets (included in "Investment properties" account in the consolidated statement of financial position). All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

The interest capitalized is calculated using the Group's weighted average cost of borrowings after adjusting for borrowings associated with specific developments. Where borrowings are associated with specific developments, the amounts capitalized is the gross interest incurred on those borrowings less any investment income arising on their temporary investment.

Interest is capitalized from the commencement of the development work until the date of practical completion. The capitalization of finance costs is suspended if there are prolonged periods when development activity is interrupted. Interest is also capitalized on the purchase cost of a site of

property acquired specifically for redevelopment but only where activities necessary to prepare the asset for redevelopment are in progress.

Operating Expenses

Operating expenses constitute costs of administering the business. These are recognized as expenses when incurred.

Leases

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date, and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:

- (a) there is a change in contractual terms, other than a renewal or extension of the arrangement; a renewal option is exercised or extension granted, unless that term of the renewal or extension was initially included in the lease term;
- (b) there is a change in the determination of whether fulfillment is dependent on a specified asset; or
- (c) there is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment for any of the scenarios above, and at the date of renewal or extension period for the second scenario.

Group as a lessee

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognized as an expense in profit or loss in the statement of comprehensive income on a straight-line basis over the lease term.

Indirect costs incurred in negotiating an operating lease are added to the carrying value of the leased asset and recognized over the lease term on the same bases as the lease income. Minimum lease payments are recognized on a straight-line basis while the variable rent is recognized as an expense based on the terms of the lease contract.

Group as a lessor

Leases where the lessor does not transfer substantially all the risks and benefits of ownership of the assets are classified as operating leases. Initial direct costs incurred in negotiating operating leases are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as the rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Basic and Diluted Earnings Per Share (EPS)

Basic EPS is computed by dividing net income for the year attributable to common stockholders by the weighted average number of common shares issued and outstanding during the year adjusted for any subsequent stock dividends declared. Diluted EPS is computed by dividing net income for the year by the weighted average number of common shares issued and outstanding during the year after giving effect to assumed conversion of potential common shares. The calculation of diluted EPS does not assume conversion, exercise, or other issue of potential common shares that would have an antidilutive effect on earnings per share.

As of December 31, 2015 and 2014, the Group has no potential dilutive common shares (Note 25).

Segment Reporting

Presently, the Group's only significant operating segment is related to its leasing of commercial spaces operations. This is being monitored and strategic decisions are made on the basis of operating results.

Furthermore, the Group's operations are presently concentrated in the Philippines; hence, it has no geographical segment classification. The Group, however, continues to acquire properties for future development in different areas. Rentals to any of the Group's major customers did not exceed 10% of the Group's revenues in all of the periods presented.

Since the Group has only one significant operating segment, the items presented in the consolidated financial statements corresponding to assets and liabilities represent virtually the entire segment assets and liabilities.

Foreign Currency Transactions

Transactions in foreign currencies are initially recorded in the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rate of exchange ruling at the financial reporting date. Exchange gains or losses arising from foreign exchange transactions are credited or charged against operations for the period.

Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects the current market assessment of the time value of money and the risk specific to the obligation. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized only when the reimbursement is virtually certain. The expense relating to any provision is presented in statement of comprehensive income net of any reimbursement.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

Events After the Financial Reporting Date

Post year-end events that provide additional information about the Group's position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Any post year-end events that are not adjusting events are disclosed in the consolidated financial statements when material.

5. Significant Accounting Judgments and Estimates

The preparation of accompanying consolidated financial statements in compliance with PFRS requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The estimates and assumptions used in the consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as at the date of the consolidated financial statements. Actual results could differ from such estimates.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements:

Revenue and cost recognition

Selecting an appropriate revenue recognition method for a particular real estate sale transaction requires certain judgments based on, among others:

- Buyer's commitment on the sale which may be ascertained through the significance of the buyer's initial investment; and
- Stage of completion of the project.

Collectability of the sales price

For real estate sales, in determining whether the sales prices are collectible, the Group considers that initial and continuing investments by the buyer of about 20% would demonstrate the buyer's commitment to pay.

Classification of financial instruments

The Group exercises judgment in classifying a financial instrument, or its component parts, on the initial recognition as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial asset, a financial liability or an equity instrument. The substance of the financial instrument, rather than its legal form, governs its classification in the consolidated statement of financial position.

In addition, the Group classifies financial assets by evaluating, among other, whether the asset is quoted or not in an active market. Included in the evaluation on whether a financial asset is quoted in an active market is the determination of whether quoted prices are readily and regularly available, and whether those prices represent actual and regularly occurring market transactions on an arm's length basis.

The Group classifies certain quoted nonderivative financial assets with fixed or determinable payments and fixed maturities as HTM investments. This classification required significant judgment. In making this judgment, the group evaluates its intention and ability to hold such investments to maturity. If the Group fails to keep these investments to maturity other than in certain specific circumstances, the Group will be required to reclassify the entire portfolio as AFS financial assets. Consequently, the investment would therefore be measured at fair value and not at amortized cost.

Operating lease commitments - the Group as lessee

The Group is engaged in contract of lease for some of the office space it occupies. The Group has determined that all significant risks and benefits of ownership on these properties will be retained by the lessor. In determining significant risks and benefits of ownership, the Group considered, among others, the significance of the lease term as compared with the EUL of the related asset. The Group accordingly accounted for these as operating leases.

Operating lease commitments - the Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined that it retains all significant risks and rewards of ownership of these properties as the Group considered among others the length of the lease term as compared with the EUL of the assets.

Classification of property as investment property or real estate properties for sale

The Group determines whether a property is classified as investment property or inventory property as follows:

- Investment property comprises land and buildings (principally offices, commercial and retail property) which are not occupied substantially for use by, or in the operations of, the Group, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation.
- Inventory comprises property that is held for sale in the ordinary course of business. Principally, this is residential and commercial property that the Group develops and intends to sell before or on completion of construction.

Distinction between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property. In making its judgment, the Group considers whether the property generates cash flows largely independent of the other assets held by an entity. Owner-occupied properties generate cash flows that are attributable not only to property but also to the other assets used in the production or supply process.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions cannot be sold separately, the property is accounted for as an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgment is applied in determining whether ancillary services are so significant that a property does not qualify as investment property. The Group considers each property separately in making its judgment.

Contingencies

The Group is currently involved in various legal proceedings. The estimate of probable costs for the resolution of these claims has been developed in consultation with outside counsel handling the defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material effect on the Group's financial position (Note 26).

Management's Use of Estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Revenue and cost recognition

The Group's revenue recognition policies require management to make use of estimates and assumptions that may affect the reported amounts of revenue and costs. The Group's revenue from real estate is recognized based on the POC measured principally on the basis of the actual costs incurred to date over the estimated total costs of the project.

Determining fair values of financial assets and liabilities

Fair value determinations for financial assets and liabilities are based generally on listed market prices or broker or dealer quotations. If prices are not readily determinable or if liquidating the positions is reasonably expected to affect market prices, fair value is based on either internal valuation models or management's estimate of amounts that could be realized under current market condition, assuming an orderly liquidation over a reasonable period of time. Fair value disclosures are provided in Note 27.

Impairment of financial assets

(i) AFS equity securities

The Group determines that AFS equity securities are impaired when there has been a significant or prolonged decline in the fair value below its cost. This determination of what is significant or prolonged requires judgment. The Group treats 'significant' generally as 20% or more of the original cost of investment, and 'prolonged', greater than twelve (12) months. In making this judgment, the Group evaluates among other factors, the normal volatility in share price of similar equity securities.

In addition, in the case of unquoted equity securities, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, dismal industry and sector performance, adverse changes in technology, and negative operational and financing cash flows.

The carrying values of AFS financial assets amounted to P3,936.60 million and P343.86 million as of December 31, 2015 and 2014, respectively (Note 10).

(ii) Loans and receivables

The Group reviews its receivables on a periodic basis to assess impairment of receivables at an individual and collective level. In assessing for impairment, the Group determines whether there is any objective evidence indicating that there is a measurable decrease in the estimated future cash flows of its loans and receivables. This evidence may include observable data indicating that there has been an adverse change in the payment status of borrowers, or industry-wide or local economic conditions that correlate with defaults on receivables. These factors include, but are not limited to age of balances, financial status of counterparties, payment behavior and known market factors. The Group reviews the age and status of receivables, and identifies individually significant accounts that are to be provided with allowance.

For the purpose of a collective evaluation of impairment, loans are grouped on the basis of such credit risk characteristics as type of borrower, collateral type, past-due status and term.

The amount and timing of recorded expenses for any period would differ if the Group made different judgments or utilized different estimates. An increase in allowance for impairment would increase recorded expenses and decrease net income.

Loans and receivables, net of allowance for impairment losses, amounted to ₱1,527.21 million and ₱1,608.17 million as of December 31, 2015 and 2014, respectively (Note 8). The allowance for impairment on loans and receivables amounted to ₱50.54 million and nil as of December 31, 2015 and 2014, respectively (Note 8).

Estimating allowance for impairment losses on receivables

The Group maintains allowances for impairment losses based on the results of the individual and collective assessments under PAS 39. For both individual and collective assessment, the Group is required to obtain the present value of estimated cash flows using the receivable's original EIR. The estimated cash flows considers the management's estimate of proceeds from the disposal of the collateral less cost to repair, cost to sell and return of deposit due to the defaulting party. The cost to repair and cost to sell are based on historical experience. The methodology and assumptions used for the individual and collective assessments are based on management's judgments and estimates made for the year. Therefore, the amount and timing of recorded expense for any period would differ depending on the judgments and estimates made for the year.

The balance of the Group's receivables, net of allowance for impairment loss, amounted to ₱1,527.21 million and ₱608.17 million as of December 31, 2015 and 2014, respectively (Note 8).

Evaluation of net realizable value of real estate properties for sale

Real estate properties for sale are valued at the lower of cost or NRV. This requires the Group to make an estimate of the real estate for sale inventories' estimated selling price in the ordinary course of business, cost of completion and costs necessary to make a sale to determine the NRV. The Group adjusts the cost of its real estate inventories to NRV based on its assessment of the recoverability of these assets. In determining the recoverability of these assets, management considers whether these assets are damaged, if their selling prices have declined and management's plan in discontinuing the real estate projects. Estimated selling price is derived from publicly available market data and historical experience, while estimated selling costs are basically commission expense based on historical experience. Management would also obtain the services of an independent appraiser to determine the fair value of undeveloped land based on the latest selling prices of the properties of the same characteristics of the land and improvements.

Real estate inventories amounted to ₱323.38 million and ₱323.44 million as of December 31, 2015 and 2014, respectively (Note 9).

Evaluation of impairment

The Group reviews investment properties and property and equipment for impairment of value. This includes considering certain indications of impairment such as significant changes in asset usage, significant decline in assets' market value, obsolescence or physical damage of an asset, significant underperformance relative to expected historical or projected future operating results and significant negative industry or economic trends.

The Group estimates the recoverable amount as the higher of the fair value less cost to sell and value in use. In determining the present value of estimated future cash flows expected to be generated from the continued use of the assets, the Group is required to make estimates and assumptions that may affect investment properties and property and equipment.

The fair value less costs to sell calculation is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes.

Based on management assessment as of December 31, 2015 and 2014, no indicators of impairment exist for investment properties, and property and equipment.

The aggregate carrying values of investment properties and property and equipment amounted to ₱19,215.19 million and ₱10,757.58 million as of December 31, 2015 and 2014, respectively (Notes 12 and 13).

Estimating useful lives of investment properties and property and equipment

The Group estimates the useful lives of property and equipment and investment properties based on the period over which the assets are expected to be available for use. The EUL of property and equipment and investment properties are reviewed at least annually and are updated if expectations differ from previous estimates due to physical wear and tear and technical or commercial obsolescence on the use of these property and equipment. It is possible that future results of operations could be materially affected by changes in these estimates brought about by changes in factors mentioned above.

The related cost, accumulated depreciation and depreciation of property and equipment and investment properties as of December 31, 2015 and 2014, respectively follow:

	2015	2014
Property and equipment (Note 12)		
Cost	₱99,568,000	₱377,403,599
Accumulated depreciation	38,535,838	175,834,277
Depreciation	17,404,322	45,194,485
Investment properties (Note 13)		
Cost	22,025,357,916	12,907,082,557
Accumulated depreciation	2,871,198,678	2,351,073,239
Depreciation	462,103,260	381,090,243

Recognizing deferred tax assets

The Group reviews the carrying amounts of deferred income taxes at each financial reporting date and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that the Group will generate sufficient taxable income to allow all or part of deferred tax assets to be utilized. The Group looks at its projected performance in assessing the sufficiency of future taxable income.

As of December 31, 2015 and 2014, the unrecognized deferred tax assets of the Group amounted to ₱16.91 million and ₱39.41 million, respectively (Note 23).

Estimating pension obligation and other retirement benefits

The determination of the Group's pension liabilities is dependent on selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in Note 19 and include among others, discount rates and rates of salary increase. While the Group believes that the assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions may materially affect retirement obligations. See Note 19 to the consolidated financial statements for the related balances.

Fair value of financial instruments

Where the fair values of financial assets and financial liabilities recorded in the consolidated statement of financial position cannot be derived from active markets, they are determined using internal valuation techniques using generally accepted market valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible estimates are used in establishing fair values. These estimates may include considerations of liquidity, volatility, and correlation. Certain financial assets and liabilities were initially recorded at its fair value by using the discounted cash flow methodology. See Note 27 to the consolidated financial statements for the related balances.

6. Segment Information

The Group's asset producing revenue are all located in the Philippines (i.e., one geographical location). Therefore, geographical segment information is no longer presented.

No income was derived from a single customer that constitutes 10% or more of the Group's investment income (loss) in 2015, 2014 and 2013.

7. Cash and Cash Equivalents

This account consists of:

	2015	2014
Cash on hand	P294,500	P277,000
Cash in banks	842,381,391	1,955,548,667
Cash equivalents	165,377,382	4,450,965
	P1,008,053,273	P1,960,276,632

Cash in banks earns interest at the prevailing bank deposit rates. Cash equivalents are short-term, highly liquid investments that are made for varying periods of up to three (3) months depending on the immediate cash requirements of the Group and earn interest as follows:

	2015	2014
Philippine Peso	0.25% to 2.00%	0.40% to 2.30%
US Dollar	3.00%	3.00%

Interest earned from cash in banks and cash equivalents for the years ended December 31, 2015, 2014 and 2013 amounted to P10.72 million, P5.15 million and P14.14 million, respectively (Note 21).

The Group's cash and cash equivalents do not include restricted cash amounting P72.19 million as of December 31, 2015 and 2014, which is presented as part of Prepayments and other assets account in the consolidated statements of financial position (Note 11).

8. Trade and Other Receivables

This account consists of:

	2015	2014
Trade receivables from tenants:		
Third party	P1,054,511,027	P515,960,408
Related parties under common ownership	505,083,858	92,206,511
Others	18,161,774	–

Allowance for impairment (Note 20)	(50,544,672)	–
	P1,527,211,987	P608,166,919

All of the Group's trade and other receivables have been reviewed for indications of impairment. In 2015, certain receivables from tenants were found to be impaired; hence, adequate amounts of allowance for impairment have been recognized amounting to P50.54 million in 2015. In 2014, management assessed that certain receivables totaling P21.61 million which were previously provided with allowance should already be written off.

Receivables from tenants represent the outstanding receivables arising from the lease of commercial spaces relating to the Group's mall operations and are collectible within 12 months from the end of the reporting period.

Others include receivables from employees.

A reconciliation of the allowance for impairment at the beginning and end of 2015 and 2014 is shown below.

	2015	2014
Balance at beginning of year	P–	P21,606,745
Write-off of receivables previously provided with allowance	–	(21,606,745)

9. Real Estate Properties for Sale

This account consists of:

	2015	2014
Land	P165,906,181	P166,083,953
Residential units for sale	157,477,140	157,357,423
Balance at end of year	P323,383,321	P323,441,376

Residential units for sale represent houses and lots in completed subdivision projects for which the Group has already been granted the license to sell by the HLURB of the Philippines. Residential units include units that are ready for occupancy and house models.

The real estate properties for sale are carried at cost or NRV. There is no allowance to recognize amounts of inventories that are lower than cost.

Real estate properties for sale amounting nil, ₱66.08 million and ₱11.64 million are included in as cost of real estate sales in the consolidated statement of comprehensive income for the year ended December 31, 2015, 2014 and 2013, respectively. Cost of real estate sales includes acquisition cost of raw land, subdivision and development costs paid to contractors and other costs attributable to bringing the real estate properties for sale to its intended condition.

Development cost as a percentage of cost of real estate sale is approximately 75% to 85% for the years ended December 31, 2014 and 2013, respectively.

There was no provision for impairment nor reversal recognized in 2015, 2014 and 2013.

Except as stated, there are no real estate properties for sale used as collateral or pledged as security for liabilities (Note 16).

which are already available for lease. Phase 3 of Starmall San Jose Del Monte is still in progress as of December 31, 2015.

In addition to the Phase 2 of Starmall San Jose Del Monte, Starmall Taguig and Starmall Azienda were also completed in 2014 and started operations in September and November, respectively. A commercial building in Wack-Wack in Mandaluyong was also completed during the latter part of 2014.

MAPI's land located in Bacoar, Cavite was contributed by two of its former major shareholders as consideration for their subscription to MAPI's shares of stock. The cost of acquisition and development of approximately 177,746 square meters of the said property amounted to ₱2,090.28 million as of December 31, 2014. The parcel of land is currently being developed by the Group as a commercial center that will be available for lease in the future.

MAPI acquired certain parcels of land in several locations at a cost of ₱2,665.36 million and ₱957.10 million in 2015 and 2014, respectively, for future establishment of commercial properties.

The Phase 1 of Starmall Molino, Starmall Sta. Rosa and Starmall Imus were completed and started their operations in 2015. Accordingly, the Company reclassified portion of Commercial buildings under construction to Land and Buildings and improvements amounting to ₱65.31 million and ₱1,089.94 million, respectively.

Commercial buildings still in progress as of December 31, 2015 include Starmall Bataan, Starmall Bulacan and Phase 2 of Starmall Prima Taguig, Starmall Molino in Bacoar, Cavite and Starmall Sta. Rosa, Laguna.

Investment Property Owned by Manuela

The investment property of Manuela, with a total carrying amount of ₱4,706.23 million and ₱3,331.27 million as of December 31, 2015 and 2014, includes several parcels of land and buildings and improvements located in Mandaluyong City (Starmall EDSA - Shaw and Worldwide Corporate Center), Las Piñas City (Starmall Las Piñas and Starmall Las Piñas - Annex) and Muntinlupa City (Starmall Alabang). Part of the cost of buildings and improvements is the capitalized borrowing cost amounting to ₱57.50 million, ₱1.06 million and ₱6.05 million as of December 31, 2015, 2014 and 2013, respectively (Note 16). These properties are owned and held primarily to earn rental income. The capitalization rate used was 5.75% for December 31, 2015, 2014 and 2013.

Fair Value of Investment Properties

In 2015, the Company secured the services of an independent firm of appraisers to determine the fair market values of the Company's investment as of December 31, 2015. Fair market value of investment property is determined by reference to market-based evidence, which is the amount for which the assets could be exchanged between a knowledgeable willing buyer and seller in an arm's length transaction as at the valuation date.

The results of the appraisal below showed that the fair market values of investment properties exceeded the related carrying amounts as of December 31, 2015.

The Group's Controller has overall responsibility for monitoring capital in proportion to risk. Profiles for capital ratios are set in the light of changes in the Group's external environment and the risks underlying the Group's business, operation and industry.

19. Post-employment Defined Benefit Plan

The Group has an unfunded, noncontributory defined benefit pension plan covering substantially all of its regular employees. The benefits are based on current salaries and years of service and related compensation on the last year of employment. The retirement is the only long-term employee benefit.

The principal actuarial assumptions used to determine the pension benefits with respect to the discount rate, salary increases and return on plan assets were based on historical and projected normal rates.

The components of pension expense follow:

	2015	2014	2013
Current service cost	₱9,348,615	₱4,220,522	₱2,091,761
Interest cost (Note 21)	1,868,123	3,171,116	1,176,357
Total pension expense	₱11,216,738	₱7,391,638	₱3,268,118

Changes in the combined present value of the combined defined benefit obligation are as follows:

Total amount recognized in OCI	(1,339,863)	6,033,737
Balance at end of year	₱60,696,193	₱50,819,318

The Group immediately recognized to OCI any actuarial gains and losses.

The assumptions used to determine the pension benefits for the Group are as follows:

	2015	2014
Discount rates	4.58% to 5.00%	4.50% to 4.70%
Salary increase rate	7.00% to 11.00%	7.00% to 11.00%

As of December 31, 2015, the Group is yet to determine how much and when to fund the post-employment defined benefit plan.

The sensitivity analyses that follow has been determined based on reasonably possible changes of the assumption occurring as at December 31, 2015, assuming if all other assumptions were held constant.

		Rates	PVO

24. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party in making financial and operating decisions or the parties are subject to common control or common significant influence (referred to herein as “affiliates”). Related parties may be individuals or corporate entities.

The Group in their regular conduct of business has entered into transactions with affiliates and other related parties principally consisting of advances and reimbursement of expenses and purchase and sale of real estate properties. The Group’s policy is to settle its intercompany receivables and payables on a net basis.

The consolidated statement of financial position include the following amounts resulting from the foregoing transactions which represent amounts receivable (payable) to related parties as of December 31, 2015 and 2014:

Terms and conditions of transactions with related parties

Outstanding balances at year-end are unsecured, interest free and settlement occurs in cash. These principally consist of dividends, advances, reimbursement of expenses and management income. As of December 31, 2015 and 2014, the Group has not made any provision for impairment loss relating to amounts owed by related parties. This assessment is undertaken each financial year by examining the financial position of the related party and the market in which the related party operates.

Except as stated in Note 16 to the consolidated financial statements, there have been no guarantees provided or received for any related party receivables or payables.

Sale of treasury shares

In 2015, treasury stock amounting P1,578.29 million was sold to Vista Land for P5,516.19 million (Note 18). The outstanding payable amounted to P5,171.43 million as of December 31, 2015.

Investment in Vista Land

The group acquired 752,208,215 million shares of Vista Land for P7.15 per share or P5,378.29 million. Outstanding receivable amounted to P5,033.53 million as of December 31, 2015.

Assignment of Receivables

Portion of the balance of Due from Related Parties as of December 31, 2013 includes the accounts receivable from Communities Philippines, Inc. (CPI), a related party under common ownership, of ₱122.9 million and from its major stockholder, FPI, of ₱51.6 million. These receivables arose in prior years from the foreclosure by the Bangko Sentral ng Pilipinas (BSP) of the Company's real estate property (Bellefonte) to pay off the loan to Optimum Development Bank (ODB). In view of the foreclosure, the Group derecognized the asset and recognized a receivable from CPI amounting to ₱122.9 million representing the amount of estimated development costs which were paid in advance by the Group to CPI upon acquisition of Bellefonte but with a provision that CPI will shoulder the development costs of the project. The Group also recognized a receivable from FPI since ODB assigned its receivables from FPI to the Company to pay off ODB's share of the cost of the asset foreclosed by the BSP. These receivables are unsecured, noninterest-bearing and have no repayment terms.

Management believes that these receivables are fully recoverable from the related parties.

The outstanding balance was accordingly excluded from the Group's consolidated financial statement as a result of the deconsolidation of BEC in 2014.

Cash Advances

In the normal course of business, the Group grants and/or receives cash advances from its major stockholder, FPI, and its subsidiaries for working capital requirements and other purposes. The advances are unsecured, noninterest-bearing, with no repayment terms and are repayable in cash.

Sale of Investment in an Associate

In May 2013, the Group sold the remaining 399,397,000 shares of its investments in VLL, with a carrying amount of ₱1,906.22 million, for a total consideration of ₱2,772.30 million to FPI. The outstanding receivable as of December 31, 2015 and 2014 amounting ₱2,027.57 million and ₱2,536.90 million, respectively is presented as part of Due from related parties under current and non-current sections of the consolidated statements of financial position and is payable annually up to 2019. The agreement also provides for interest at a fixed annual rate of 4% starting 2015.

The outstanding receivable as of December 31, 2013 is net of stock transaction tax and other charges amounting to ₱15.5 million which was paid by FPI in behalf of the Group.

Transactions with Related Parties Under Common Ownership

Land Purchase

In 2011, the Group acquired a parcel of land amounting ₱46.3 million from HDC to be developed as commercial property in the future whose balance is payable on a quarterly basis over a period of five years (Note 13). The liability is noninterest-bearing and measured at amortized cost using the effective interest method. The outstanding balance arising from this transaction is presented as Liability for land acquisition in the consolidated statements of financial position.

Operating Lease Agreement

In 2013, the Group entered into an operating lease agreement with HDC for the lease of parcels of land located in Ususan Taguig and Tuktukan Taguig, to be developed by the Group as commercial property in the future. The lease term is for a period of 20 years with renewal option. In 2014, the Group and HDC entered into a deed of absolute sale covering the parcel of land located in Tuktukan Taguig and cancelled the contract of lease.

Subsequent to December 31, 2014, the Group and HDC entered into another deed of absolute sale covering the parcels of land located in Ususan Taguig (Note 13).

Real Estate Sales

In 2014, the Group sold portion of its residential lots for sale for a consideration of P32.2 million to HDC which were recognized as part of Real Estate Sales in the 2014 consolidated statement of comprehensive income. There was no outstanding receivable arising from the transaction as of December 31, 2014.

Rental Income

The Group has operating lease agreements with certain related parties under common ownership for the lease of the Group's investment property (Note 13). The lease agreements have a term of one year and are renewable annually. The rentals earned from related parties are presented as part of Rental income under the Revenues and Income account in the consolidated statements of comprehensive income. The outstanding receivables arising from these transactions are shown as part of the Trade and other receivables account in the consolidated statements of financial position (Note 8).

Disposal of Investment in a Subsidiary

On December 29, 2014, the Company transferred, by executing a deed of assignment, all its ownership interest in BEC consisting of 1,009,960 common shares of stock with par value of P100 per share to HDC, a related party under common ownership, for P507.16 million (Note 18). As of December 31, 2014, the Group received certain parcels of land in Taguig, Imus and Las Piñas City amounting to P415.5 million (Note 13). The outstanding receivables arising from this transaction is shown as part of the Due from Related Party account in the current section of the 2014 consolidated statement of financial position. The disposal of the BEC shares resulted to the deconsolidation of the latter as of December 31, 2014. Loss on disposal of a subsidiary amounted to P28.16 million and is presented under the interest income and interest and other financial charges account in the 2014 consolidated statement of comprehensive income.

Transfer of Land

In 2015, land under investment property amounting P155.43 million has been transferred to related parties and was applied against corresponding due to related parties (Note 30).

Key Management Personnel Compensation

The compensation of key management personnel by benefit type follows:

	2015	2014	2013
Short-term employee benefits	P26,224,428	P22,677,368	P17,767,887
Post-employment benefits	9,348,615	4,220,522	2,091,761
	P35,573,043	P26,897,890	P19,859,648

25. Earnings Per Share

EPS were computed as follows:

	2015	2014	2013
Net profit attributable to parent company's stockholders	P830,509,357	P561,268,879	P1,553,551,779
Divided by weighted average number of outstanding common shares	7,092,378,517	7,202,878,365	7,202,878,365
	P0.117	P0.078	P0.216

The Group does not have potential dilutive shares as of December 31, 2015, 2014 and 2013. Diluted EPS is equal to basic EPS.

The 2014 and 2013 basic and dilutive EPS have been restated to consider the effects of the realignment accounting for business combination (Note 2).

26. Contingencies

The Group is contingently liable with respect to lease contracts and other transactions arising in the ordinary course of business.

Credit Line

As of December 31, 2015 and 2014, the Group has unused letters of credit with two local banks amounting to nil and ₱119.4 billion, respectively.

Legal Matters

As of December 31, 2015 and 2014, certain lawsuits and claims filed by or against the Group are still pending. Management and its legal counsel believe that the ultimate outcome of these lawsuits and claims will not have a material adverse effect on the Group's consolidated financial statements. The information usually required by PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, is not disclosed on the grounds that it can be expected to prejudice the outcome of these lawsuits, claims and assessments.

Others

There are other commitments and contingent liabilities that arise in the normal course of the Group's operations that are not reflected in the consolidated financial statements. Management is of the opinion that losses, if any, from these items will not have a material effect on the Group's consolidated financial statements.

27. Fair Value Determination

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: other valuation techniques involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: other valuation techniques involving inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value:

Cash and cash equivalents: Due to the short-term nature of the account, the fair value of cash and cash equivalents approximates the carrying amounts in the consolidated statements of financial position.

Installment contracts receivables: Estimated fair value of installment contracts receivables is

based on the discounted value of future cash flows using the prevailing interest rates for similar types of receivables as of the reporting date using the remaining terms of maturity. The discount rate used ranged from 12% to 20% in 2015 and 12% to 20% in 2014.

Trade and other receivables: due to the short-term nature of the account, the fair value of other receivables approximates the carrying amounts.

Due from related parties: Due to the short-term nature of the account, carrying amounts approximate their fair values.

AFS financial assets: for AFS investment in unquoted equity securities, these are carried and presented at cost since fair value is not reasonably determine due to the unpredictable nature of future cash flows and without any other suitable methods of arriving at a reliable fair value.

For shares in open ended investment companies, fair value is by reference to net asset value per share.

Investment properties: The valuation techniques adopted for the measurement of fair values are the market approach for the land and cost approach for the buildings and building improvements.

Accounts and other payables: fair values of accounts and other payables approximate their carrying amounts in the consolidated statement of financial position due to the short-term nature of the transactions.

Due to related parties: Due to the short-term nature of the account, carrying amounts approximate their fair values.

Interest-bearing loans and borrowings and liability for land acquisition: estimated fair values of bank loans and liability for land acquisition are based on the discounted value of future cash flows using the applicable rates for similar types of loans. Interest rates used in discounting cash flows ranges from 4.50% to 7.25% in 2015 and 4.50% to 8.00% in 2014 using the remaining terms to maturity.

The following table provides the fair value measurement hierarchy of the Group's financial assets and liabilities recognized as of December 31, 2015 and 2014:

In 2015 and 2014, there were no transfers between Level 1 and Level 2 fair value measurements. Financial assets determined under Level 3 include AFS investment in unquoted equity securities and installments contracts receivables.

Financial liabilities under Level 3 include liability for land acquisition and interest-bearing loans and borrowings. No transfers between any levels of the fair value hierarchy took place in the equivalent comparative period.

Description of significant unobservable inputs to valuation:

Account	Valuation Technique	Significant Unobservable Inputs
Installment contracts receivables	Discounted cash flow analysis	Discount rate
Interest-bearing loans and borrowings	Discounted cash flow analysis	Discount rate
Liability for land acquisition	Discounted cash flow analysis	Discount rate
Investment property	Market Data Approach	Price per square meter, size, location, shape, time, element and corner influence

Significant increases (decreases) in discount rate would result in significantly higher (lower) fair value of the installment contracts receivables, bank loans, loans payables and liabilities for purchased land.

Significant Unobservable Input

Discount Rate	The rate at which cash flows are discounted back to the value at measurement date.

28. Financial Assets and Liabilities

Financial Risk Management and Objectives

Financial risk

The Group's principal financial liabilities comprise of interest-bearing loans and borrowings, trade and other payables and liability for land acquisition. The main purpose of the Group's financial liabilities is to raise financing for the Group's operations. The Group has various financial assets such as installment contracts receivables, cash and cash equivalents and AFS financial assets which arise directly from its operations. The main risks arising from the use of financial instruments are interest rate risk, foreign currency risk, credit risk, equity price risk and liquidity risk.

The BOD reviews and approves with policies for managing each of these risks. The Group monitors market price risk arising from all financial instruments and regularly report financial management activities and the results of these activities to the BOD.

The Group's risk management policies are summarized below. The exposure to risk and how they arise, as well as the Group's objectives, policies and processes for managing the risk and the methods used to measure the risk did not change from prior years.

Cash flow interest rate risk

The Group's exposure to market risk for changes in interest rates, relates primarily to its financial assets and liabilities that are interest-bearing.

The Group's policy is to manage its interest cost by entering into fixed rate debts. The Group also regularly enters into short-term loans as it relates to its sold installment contracts receivables in order to cushion the impact of potential increase in loan interest rates.

The table below shows the financial assets and liabilities that are interest-bearing:

	December 31, 2015		December 31, 2014	
	Effective Interest Rate	Amount	Effective Interest Rate	Amount
Financial assets				
<i>Fixed rate</i>				
Cash and cash equivalents (excluding cash on hand)	1.2% to 2.0%	P1,007,758,773	0.4% to 2.3%	P1,959,999,632
Installment contracts receivable	12.0% to 20.0%	57,131,689	12.0% to 20.0%	66,629,884
		P1,064,890,462		P2,026,629,516
Financial liabilities				
<i>Fixed rate</i>				
Interest-bearing loans and borrowings	4.50% to 7.25%	P10,748,251,106	4.50% to 7.00%	P4,901,898,954
Liability for land acquisition	5.70% to 7.50%	552,155,604	5.70%	270,230,605
		P11,300,406,710		P5,171,947,559

As of December 31, 2015 and 2014, the Group's income and operating cash flows are substantially independent of changes in market interest rates.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Exposure to foreign currency risk arises mainly when financial assets, financial liabilities, and forecasted transactions are denominated in a currency other than the Company's local currency or will be denominated in such a currency in the planned course of business. The principal foreign currency risk to which the Company is exposed involves the US Dollar (US\$). Foreign currency risk is monitored and analyzed systematically and is managed by the Company.

The Company's foreign exchange risk from fluctuation of exchange rate is mainly on the Company's cash in bank.

The exchange rates as of December 31, 2015 and 2014 was P47.12 and P44.72 per US\$1.00, respectively. As of December 31, 2015 and 2014, the Company's US dollar-denominated cash in banks amounted to US\$13,060.39 and US\$57,724.27, respectively.

The following table demonstrates the sensitivity to a reasonably possible change in the US dollar exchange rate until its next annual financial reporting date, with all other variables held constant, of the Company's 2015 and 2014 profit before tax (due to changes in the fair value of monetary assets and liabilities) as of December 31, 2015 and 2014.

	Currency	Increase (decrease) in US dollar rate	Effect on income (loss) before income tax
2015	US\$	+0.75%	P4,610
		-0.75%	(4,610)
2014	US\$	+0.84%	21,684
		-0.84%	(21,684)

Credit risk

The Group transacts only with recognized and creditworthy third parties. The Group's receivables are monitored on an ongoing basis resulting to manageable exposure to bad debts. Lessees and real estate buyers are subject to standard credit check procedures, which are calibrated based on the payment scheme offered. The Group's respective credit management units conduct a comprehensive credit investigation and evaluation of each buyer to establish creditworthiness. Receivable balances are being monitored on a regular basis to ensure timely execution of necessary intervention efforts. In addition, the credit risk for installment contracts receivables is mitigated as the Group has the right to cancel the sales contract without need for any court action and take possession of the subject house in case of refusal by the buyer to pay on time the due installment contracts receivable. This risk is further mitigated because the corresponding title to the subdivision units sold under this arrangement is transferred to the buyers only upon full payment of the contract price and the requirement for remedial procedures is minimal given the profile of buyers.

With respect to credit risk arising from the other financial assets of the Group, which are comprised of cash and cash equivalents and AFS financial assets, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. The Group manages its cash by maintaining cash accounts with banks which have demonstrated financial soundness for several years.

The table below shows the comparative summary of maximum credit risk exposure on financial assets as of December 31, 2015 and 2014:

High grade cash and cash equivalents are money market placements and working cash fund placed, invested or deposited in local banks belonging to the top ten banks in the Philippines in terms of resources and profitability.

The Group's high-grade receivables pertain to receivables from related parties and third parties which, based on experience, are highly collectible or collectible on demand, and of which exposure to bad debt is not significant.

Medium grade accounts are active accounts with minimal to regular instances of payment default, due to ordinary/common collection issues. These accounts are typically not impaired as the counterparties generally respond to credit actions and update their payments accordingly.

Low grade accounts are accounts which have probability of impairment based on historical trend.

Based on the Group's experience, its loans and receivables are highly collectible or collectible on demand. In respect of trade and other receivables, the Group is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. Trade receivables consist of a large number of customers in various industries and geographical areas. Based on historical information about customer default rates, management considers the credit quality of trade receivables that are not past due or impaired to be good. The installment contract receivables are collateralized by the corresponding real estate properties. In few cases of buyer defaults, the Group can repossess the collateralized properties and held it for sale in the ordinary course of business at the prevailing market price. The total of repossessed properties included in the "Real estate inventories" account in the consolidated statement of financial position amounted to ₱0.62 million as of December 31, 2015 and 2014, respectively. The Group performs certain repair activities on the said repossessed assets in order to put their condition at a marketable state. Costs incurred in bringing the repossessed assets to its marketable state are included in their carrying amounts.

The Group did not accrue any interest income on impaired financial assets.

Liquidity Risk

The Group monitors its cash flow position, debt maturity profile and overall liquidity position in assessing its exposure to liquidity risk. The Group maintains a level of cash deemed sufficient to finance its cash requirements. Operating expenses and working capital requirements are sufficiently funded through cash collections. The Group's loan maturity profile is regularly reviewed to ensure availability of funding through adequate credit facilities with banks and other financial institutions.

The extent and nature of exposures to liquidity risk and how they arise as well as the Group's objectives, policies and processes for managing the risk and the methods used to measure the risk are the same for 2015 and 2014.

Equity Price Risk

The Group's equity price risk exposure relates to financial assets whose values will fluctuate as a result of changes in market prices, principally investment in mutual funds classified as AFS financial assets. Such securities are subject to price risk due to possible adverse changes in market values of instruments arising from factors specific to individual instruments or their issuers or factors affecting all instruments traded in the market. The Group invests in equity securities for various reasons, including reducing its overall exposure to interest rate risk.

In 2015, the Group determined the reasonably possible change in index using the specific adjusted data for each equity security the Group holds as of the reporting dates. The adjusted data is the forecasted measure of the volatility of security or a portfolio in comparison to the market as a whole.

The analysis below is performed for reasonably possible movements in NAV per share with all other variables held constant, showing the impact on equity (that reflects adjustments due to changes in fair value of AFS financial assets):

	Change in NAV per Share	Impact on Equity
December 31, 2015	+7.64%	₱2,824,230
	-7.64%	(2,824,230)

In 2014, the Group determined the reasonably possible change in NAV per share using the historical NAV year-end values for the past three years.

29. Lease Commitments

Operating Lease Commitments - Group as Lessee

The Group leases a parcel of land from LECA Properties, Inc. (LECA) where WCC is situated for an original period of 25 years commencing on August 1, 1995 until July 31, 2020 with rental escalation every year at an agreed rate ranging from ₱44.20 to ₱44.89 per square meter. The lease contract includes a clause that the lessee shall be responsible for all real property taxes, assessments or charges on the improvements on the leased property.

On August 25, 2010, Manuela executed a Memorandum of Agreement (MOA) whereby LECA agreed to a reduction of the amount of outstanding rentals and arrearages and set a schedule of payment of the agreed amount. Furthermore, on the same MOA, LECA agreed for an extension of the term of the original lease, for an addition 10 years from the expiration of the original lease period, under the same terms and conditions, except as to the rate of rentals which the parties shall agree prior to the expiration of the original lease term.

Also, the Group is a lessee under various operating leases covering parcels of land where some on-going mall projects are being constructed. These leases have terms ranging from 20 to 25 years, with rental escalation clauses and renewal options.

Subsequent to December 31, 2014, the Group entered into deeds of absolute sale to acquire certain parcels of the aforementioned land, thus resulting to the termination of the related lease contracts (Note 24). These were taken into consideration in computing for the future minimum rental commitments as of December 31, 2015.

Rental expense from these operating leases amounted to ₱107.29 million, ₱104.93 million and ₱83.83 million in 2015, 2014 and 2013, respectively, and is presented as part of rentals under the costs and expenses account in the consolidated statements of comprehensive income.

The future minimum rental commitments arising from their agreements as of December 31 are as follows:

	2015	2014
Less than one year	₱107,351,659	₱100,153,956
Between one and five years	566,672,997	529,658,655
More than five years	2,015,115,699	2,147,795,459
	₱2,689,140,355	₱2,777,608,070

Operating Lease Commitments - Group as Lessor

The Group leases out properties under various operating leases with various escalation clauses and renewal rights. Rental income from these operating leases in 2015, 2014 and 2013 amounted to ₱2,087.54 million, ₱1,408.14 million and ₱1,263.60 million, respectively, and is presented as rental income under the revenues and income account in the consolidated statements of comprehensive income.

The future minimum lease receivables under these non-cancelable leases as of December 31 are as follows:

	2015	2014
Less than one year	₱1,003,313,954	₱854,985,334
Between one and five years	1,765,142,467	1,171,195,358
More than five years	893,246,101	507,353,973
	₱3,661,702,522	₱2,533,534,665

Stated in the lease agreements is the payment of refundable security deposits equivalent to 3-month's rent which is remitted by the tenants upon the commencement of their lease contracts. The Group has outstanding liability as of December 31, 2015 and 2014 amounting ₱94.60 million and ₱72.60 million, respectively, and is presented under non-current liabilities section of the consolidated statements of financial position.

30. Notes to Consolidated Statements of Cash Flows

The Group's noncash investing and financing activities pertain to the following:

- In 2015, land under investment property amounting ₱155.43 million has been transferred to related parties and was recorded as due from related parties (Note 24).
- Transfer from other noncurrent assets to investment property amounting ₱0.34 million as of December 31, 2015 (Notes 11 and 13).

31. Reclassifications

In 2015, the Group opted to reclassify the following accounts into new groupings that management believes is more useful to the users of the financial statements. The reclassifications affected the amounts in the consolidated financial position and are as follows:

Accounts	2015	2014	Nature
Advances to officers and employees	₱18,161,774	₱25,382,375	Previously presented as part of
Trade and other receivables	1,714,152,273	608,166,919	"Prepayments and other assets"
Accrued rentals	239,049,684	252,107,294	Previously presented as part of
Accrued expenses	301,169,407	75,019,755	"Trade and other payables"
Estimated liability on property development cost	4,831,199	4,831,199	Previously presented as part of
Other non-current liabilities	581,839,712	475,697,625	"Trade and other payables"

The Group's management believes that the above presentation would be more useful to the users of the consolidated financial statements.

32. Other Matter

In May 2013, the Group sold the remaining 399.40 million shares of its investment in Vista Land with the carrying amount of ₱1,793.89 million, for a total consideration of ₱2,787.83 million. The Group recognized a gain of ₱993.94 million in 2013 which was presented as “Gain (loss) on disposal of investments in shares of stock” under the Other Income (Charges) account in the consolidated statements of comprehensive income.

There were no dividends earned in 2013 before the sale of the remaining shares of Vista Land.

33. Approval of the Financial Statements
